English Core

Time : 3 Hours

Max. Marks : 80

GENERAL INSTRUCTIONS

- This paper is divided into three sections A, B and C. All the sections are compulsory.
- Separate instructions are given with each section and question, wherever necessary. Read the instructions very carefully and follow them faithfully.
- Do not exceed the prescribed word-limit while answering the questions.

Section – A (Reading) [26]

I. Read the passage given below and answer the questions that follow.

[1x10=10]

- (1) Like Celine Dion's Academy Award-winning Titanic theme song, 'My Heart Will Go On', the mystery around what led to the sinking of the superliner on 14 April, 1912, it seems, will continue forever. So even one hundred years after the incident happened, we have yet another theory bobbing to the surface. To recount the old official tale, RMS Titanic was on its way from Southampton to New York when it struck an iceberg just off the coast of Newfoundland. The massive blow hit the 100-metre long starboard section of the hull, creating a huge fissure in its hull. Seawater rushed inside its six supposedly watertight compartments. Soon all the cabins were flooded and within the next three hours, the ship went down. More than 1,500 people lost their lives in disaster. According to some hypotheses, Titanic was doomed from the start by the design so many lauded as state of the art.
- (2) But not many bought this theory and a legion of stories about the legend began to come out. The latest has been floated by science writer Richard Corfield who says that the rivets that held the ship's hull together were not according to their specifications in composition or quality and gave way when the ship hit the iceberg. A quick web search, however, reveals that the fascinating thing called the human mind is capable of much more; while one pinned the accident down to a fire inside the ship's coal bunkers, another one talked about the curse of the Pharaohs because a traveler had with him a sarcophagus containing the mummy of an ancient Egyptian priestess. Other than these glamorous theories, there are the ordinary ones: the helmsman making a steering blunder and the ship moving too fast to win the Blue Riband, a prestigious prize awarded to a ship for making the fastest North Atlantic crossing.
- (3) So, what makes the Titanic story tick? From the very beginning, its story was tailor-made to be fascinating copy. Investigating it made good business too: from books to research grants to underwater expeditions, not to mention a mega budget movie. In other words, the Titanic story has been done to death. May be the hundredth year is a good time to leave the ship in its watery grave once and for all.

Attempt the questions given below by selecting the most appropriate option.

- (i) According to Richard Corfield, the cause of sinking of the Titanic was.....
- (a) The cursed mummy being carried in the ship.
 - (b) The helmsman moving the ship too fast
 - (c) The poor quality of the rivets
 - (d) A fire inside the ship's coal bunkers.
- (ii) The prize for the fastest ship to cross the North Atlantic was the
- (a) Sarcophagus Prize
 - (b) Blue Riband
 - (c) North Atlantic Prize
