Barbara Borg, Mary Ann Bruce

Client Centered Reasoning Narratives Of People With Mental Illness:

Client-Centered Reasoning Pat Precin, 2015 How can you motivate and prepare students for the complex process of developing clinical reasoning and problem solving skills when working with people with mental illness Client Centered Reasoning Narratives of People with Mental Illness puts you on the right path to understanding your clients who have impaired functioning due to mental illness and or substance abuse Inside these pages you will find stories written by clients along with stories and daily logs written by occupational therapy interns about their clients and about their internship experiences in mental health settings Through her analysis of the writings the author challenges you to enhance your analytical thinking Using these narratives logs activities role play exercises and clinical analyses this book offers a real life approach that helps you learn how to alleviate the fears and prejudices you may have in working with this population and allows you to better understand the issues clients face living with their illness Topics include suicide manic depression substance abuse violence aggression and hyper sexuality as well as clients rights No matter what your profession if you work with mentally ill clients this book is an invaluable tool that will help you become better prepared to provide effective mental health intervention Dr Pat Precin is Assistant Professor of Occupational Therapy at Touro College consultant and licensed psychoanalyst with a private practice in Manhattan Dr Precin has over 27 years of experience working with people with mental illness and has directly supervised over 175 occupational therapy practitioner students in various clinical settings She has authored and edited a number of books including Living Skills Recovery Workbook in addition to numerous journal articles chapters and grants Readers interested in related titles from Patricia Precin will also want to see Living Skills Recovery Workbook ISBN 9781626548589 Psychosocial Conceptual Practice Models in Occupational Therapy Moses N. Ikiugu, Elizabeth A. Ciaravino, 2007-01-01 This book examines the occupational therapy paradigm its focal viewpoint core constructs and values as well as the role of complexity chaos theory as a scientific framework for occupational therapy research and practice Unlike other current OT texts this book uses clinical case examples to illustrate application of proposed changes to make procedures consistent with the latest Occupational Therapy Practice Framework The reader walks away with a clear grasp of the theoretical principles guiding his or her treatment interventions the explanations behind those principles and the applicable intervention for said techniques and procedures An emphasis on clinical reasoning skills including information on different types of reasoning skills as well as the MAPP model of teaching helps the student and clinician translate theoretical principles into practice The section on specific interventions addresses each of the conceptual practice models according to a consistent chapter template which enables the reader to apply conceptual practice models in real world contexts Preview questions at the beginning of each chapter alert the reader to important concepts in the upcoming text Critical analysis of the theoretical core provides suggested modifications to increase consistency with the new occupational therapy paradigm Healing 9/11 Pat Precin, 2014-06-11 Get a first hand look at the ongoing tragedy of 9 11

Healing 9 11 examines programs and interventions created and implemented by occupational therapists to aid those affected directly and indirectly by the 9 11 attacks Ideal for courses in trauma and recovery community interventions disaster recovery health programs and implementation and mental health interventions as well as for professionals this powerful book chronicles the experiences of OTs who worked with firefighters burn victims and displaced workers as well as children students and clients suffering long term symptoms of depression and anxiety These first hand accounts offer rare insights into the healing process for victims of terrorism including OTs themselves and serve as a guide to developing outreach and counseling services to those touched by future incidents Healing 9 11 continues the work of Surviving 9 11 Impact and Experiences of Occupational Therapy Practitioners Haworth presenting detailed personal and professional accounts from OTs who provided physical emotional and psychosocial relief to thousands of disaster victims This unique book reveals how OTs provided aggressive manual therapy wound care and scar management to the critically injured how OTs analyzed the job market and found work for people who had lost their livelihoods how OTs worked with students in classroom settings to relieve their anxieties and how OTs helped rescue workers at Ground Zero deal with the emotions that threatened to overpower them Healing 9 11 examines nontraditional group therapy non clinical treatment settings burn rehabilitation pediatric occupational therapy school based occupational therapy employment planning occupational frame of reference creative arts therapy post traumatic stress disorder and much more Healing 911 Creative Programming by Occupational Therapists is an essential resource for all healthcare professionals who offer relief in times of disaster
