

BACKING HITLER: CONSENT AND COERCION IN NAZI GERMANY

By Robert Gellately. Oxford: Oxford University Press, 2001. 359 pp.

As early as the 1930s, articles on the systematic persecution of Jews and the use of concentration camps appeared without restraint in the *Völkische Beobachter*, initially the NSDAP party paper, but soon to become Germany's leading newspaper.

Since Hitler's election in 1933, the Nazi press and those papers well-disposed to the Nazis described what was going to happen to Jews, Communists, homosexuals, and other "enemies of the people." Hitler had already made his views on this matter public in *Mein Kampf* in 1925. When, eight years later, the NSDAP came to power by popular vote, the party's "spin doctors" had fully understood how easy it was to activate the widespread latent anti-Semitism. In short, *Backing Hitler* is about public opinion in Nazi Germany.

With minister of propaganda Joseph Goebbels leading the way, the Nazis worked hard to turn Germany into a country governed by modern mass media. The rulers did not bother to lend the merest semblance of legitimacy to their acts of repression. On the contrary, on 24 February 1934, newspaper editors were instructed that it was undesirable to write about criminals being "sentenced" to death. It was preferable to state simply that such a person had been "executed." The paradox of the German police state was that the Nazis understood that every radicalization had to be publicized widely in order to gain popular support.

Citizens under a dictatorship do not read the paper less often because they know it is being censored. Bearing this knowledge of Goebbels in mind, it is fascinating to investigate what the Nazis wished to bring out in the open, rather than concentrating on what information they suppressed.

Backing Hitler Report:

Hitler's True Believers Robert Gellately, 2020-05-01 Understanding Adolf Hitler's ideology provides insights into the mental world of an extremist politics that over the course of the Third Reich developed explosive energies culminating in the Second World War and the Holocaust. Too often the theories underlying National Socialism or Nazism are dismissed as an irrational hodgepodge of ideas. Yet that ideology drove Hitler's quest for power in 1933, colored everything in the Third Reich, and transformed him, however briefly, into the most powerful leader in the world. How did he discover that ideology? How was it that cohorts of leaders, followers, and ordinary citizens adopted aspects of National Socialism without experiencing the leader first hand or reading his works? They shared a collective desire to create a harmonious, racially select community of the people to build on Germany's socialist-oriented political culture and to seek national renewal. If we wish to understand the rise of the Nazi Party and the new dictatorship's remarkable staying power, we have to take the nationalist and socialist aspects of this ideology seriously. Hitler became a kind of representative figure for ideas, emotions, and aims that he shared with thousands and eventually millions of true believers who were of like mind. They projected onto him the properties of the necessary leader, a commanding figure at the head of a uniformed corps that would rally the masses and storm the barricades. It remains remarkable that millions of people in a well-educated and cultured nation eventually came to accept or accommodate themselves to the tenants of an extremist ideology laced with hatred and laden with such obvious murderous implications.

Protest in Hitler's "National Community" Nathan Stoltzfus, Birgit Maier-Katkin, 2015-12-01 That Hitler's Gestapo harshly suppressed any signs of opposition inside the Third Reich is a common misconception. This book presents studies of public dissent that prove this was not always the case. It examines circumstances under which racial Germans were motivated to protest as well as the conditions determining the regime's response. Workers, women, and religious groups all convinced the Nazis to appease rather than repress racial Germans. Expressions of discontent actually increased during the war, and Hitler remained willing to compromise in governing the German Volk as long as he thought the Reich could salvage victory.

Kristallnacht 1938 Alan E. Steinweis, 2009-11-15 Kristallnacht revealed to the world the intent and extent of Nazi Judeophobia. However, it was seen essentially as the work of the Nazi leadership. Now Steinweis counters that view in his vision of Kristallnacht as a veritable pogrom, a popular convulsion of anti-Semitic violence manipulated from above but executed from below by ordinary Germans.

Hitler the Pawn Rudolf Olden, 1936 Backing Hitler Robert Gellately, 2001 A professor of Holocaust history probes the extent of knowledge among the German populace about Nazi atrocities and discovers a disturbing level of understanding, acquiescence, and approval among the masses.

The New York Times Index, 1923 **Hitler Strikes Poland** Alexander B. Rossino, 2003 Usually given short shrift in most histories of World War II, Hitler's invasion of Poland was more than a series of opening salvos; it was a testing ground for German brutalities to come. This is a comprehensive study of the campaign, including insights into its ideological underpinnings.
