

Cyber Bullying in the Internet

Cyber-bullying is a form of bullying or harassment using electronics means. It has become gradually more common, especially among young people nowadays. Cyber-bullying is when someone bully or harass others through social media sites. Today, young people and even the adults are using the internet. The internet and mobile phones systems are the two biggest systems of communication which plays a crucial role in our daily activities and development of identities.

On the other hand, these same technologies are also often used negatively. Many young people are the targets of bullying via internet using social media resulting in total confusion on the part "target". Very often, young people or teenagers are not able to understand that what they are going through is a form of bullying. As a result, the previously safe environment of the internet is now becoming a source of confusion, anxiety and depression.

In a large study, 40 percent of students who engaged in online bullying reported not feeling anything after bullying online, while only 16 percent of the cyberbullies reported feeling guilty. About 43% of young people report experiencing cyberbullying at some point. It's a very difficult issue to avoid entirely, as 80% of teenagers use a smart phone regularly. That means they're vulnerable to receiving harmful messages at any time.

Cyber-bullying is easily seen and more accessible on social media sites just because of the social freedoms that the sites allow us to have. Studies have found that youth who bully face-to-face are likely to engage in online bullying. Thus, if a youth is bullying someone in person they might also be bullying others through social media. Cyberbullies do cyber-bullying because they can't do it in person so certainly they do it online. Having also insecurities to a specific person could result to cyber-bullying because if he/she can't have what that person has he/she will definitely bully that person through the use of social media.

According to the research bullies do cyberbullying also because of what they see around their environment. For example, seeing a scandal and asking for link, then after watching it, immediately post something bad about the persons who are involved in the scandal because they can see that people is happy and liking the idea of posting bad contents about the persons in the scandal. According also to the research, there are two types of bully, first the popular ones a
