Measurements stored during one "session" can be recalled and managed. Users can also easily markup scan images with redline tools to effectively communicate with others. "Redline Manager" allows users to handle multiple markups at once, including appropriate view points for individual redlines.

Collaboration via Databases

Cyclone's unique Object Database Client/Server architecture lets multiple users operate on the same scan data set simultaneously. Users can collaborate directly and share data across networks.

Data Management and Exchange

Leica Cyclone VIEWER Pro also serves as a versatile data exchange module. Numerous import and export formats are supported. Previously modeled content can be easily exported into industry standard formats for further use in other software.
