**Handbook of Governance in Small States** Lino Briguglio, Jessica Byron, Stefano Moncada, Wouter Veenendaal, 2020-12-17 This volume covers a wide spectrum of governance issues relating to small states in a global context While different definitions of governance are given in the chapters most authors associate governance with the setting and implementation of policies aimed at managing a country or territory and with the related institutional structures and interventions by political actors Generally good governance is associated with concepts such as policy effectiveness accountability transparency control of corruption encouragement of citizens voice and gender equality factors which are in turn linked with democracy What emerges from the book is that the societies of small states are being re shaped by various forces outside their control including the globalization process and climate change rendering their governance ever more complex These problems are not solely faced by small states but small country size tends to lead to a higher degree of exposure to external factors The chapters are grouped into four sections broadly covering political environmental social and economic governance Governance is influenced by many often intertwined factors the division of the book into four parts therefore does not detract from the fact that governance is multifaceted and such division was based on the primary focus of each particular study and its main disciplinary background The expert authors have moreover used a variety of approaches in the studies the subject of small states being well suited to scholarly work from different disciplines using qualitative quantitative and mixed approaches to arrive at useful conclusions

*The Kurds and the Politics of Turkey* Deniz Çifçi, 2019-08-08 The Kurds constitute the largest stateless nation in the world Their position in Turkey attracts attention both within the country and internationally particularly focusing on the demand for Kurdish independence Yet since the 1990s new Kurdish parties have formed within Turkey who have a variety of ideologies and demands that go beyond and differ in opinion on the question of independence Much of the present literature on the topic looks at the Kurds of Turkey as a homogenous group with unified political demands which over simplifies their position within the political backdrop of Turkey This book seeks to provide nuance and depth to the current debate on Kurdish political agency and presence in Turkey Presently the Kurds political demands can be classified into four categories democratic autonomy their cultural rights to be granted federalism territorial autonomies and independence creation of a Kurdish nation state In a broad sense these models can also be ordered into two categories territorial political models federalism and independence and non territorial political models democratic autonomy and cultural rights Considering the diversity within the Kurdish community intertwinement of tribal ethnic and national identity and differences in their language religion and ideology there are several contributing factors for the emergence of the current varied political demands of Kurds By explaining variation among the Kurds political demands through close analysis

of existing at emerging parties this study challenges a deterministic approach to the Kurds which currently dominates the discourse
