Introduction	Introduce the essay with a hook that demonstrates relevance of the essay to the reader. Introduce the items being compared and outline your essay structure.
	<b>Thesis Statement:</b> Don't forget to state your thesis statement in the introduction. For a compare and contrast essay, you may make a value judgement about which item is best for a certain circumstance.
Orientation	<ul style="list-style-type: none"><li>• Define your two items/concepts that are to be analyzed</li><li>• Explain the context of your discussion</li><li>• Delve deeper into the definition of each, explaining aspects or details about the concepts to help the reader understand them more.</li></ul>
Feature 1 Feature 2 Feature 3	<ul style="list-style-type: none"><li>• Select features that can be compared between the two items (e.g. size, quality, etc.)</li><li>• Explore similarities</li><li>• Explore differences</li><li>• Make value judgements about the differences between the items that is consistent with your thesis statement</li></ul>
Evaluation	<ul style="list-style-type: none"><li>• Sum up your key points and make an overall value judgement or argument about the two concepts, e.g. "Based upon the above information, it is clear that oranges are better than apples because..."</li></ul>
Conclusion	Close the loop by returning to a statement you made in the introduction. Show what your final position is. Explain who should be interested in your findings. End by noting in one final, engaging sentence why this topic is of such importance.
