*Comparative Revolutionary Movements* Thomas H. Greene, 1974  
H. Greene, 1984-01-01      **No Other Way Out** Jeff Goodwin, 2001-06-04 No Other Way Out provides a powerful explanation for the emergence of popular revolutionary movements and the occurrence of actual revolutions during the Cold War era This sweeping study ranges from Southeast Asia in the 1940s and 1950s to Central America in the 1970s and 1980s and Eastern Europe in 1989 Following in the state centered tradition of Theda Skocpol's States and Social Revolutions and Jack Goldstone's Revolutions and Rebellion in the Early Modern World Goodwin demonstrates how the actions of specific types of authoritarian regimes unwittingly channeled popular resistance into radical and often violent directions Revolution became the only way out to use Trotsky's formulation for the opponents of these intransigent regimes By comparing the historical trajectories of more than a dozen countries Goodwin also shows how revolutionaries were sometimes able to create and not simply exploit opportunities for seizing state power      *Revolutions* Jack A. Goldstone, 2003 From the American Revolution to the conflicts in Afghanistan revolutions have played a critical role in the course of history Insight into the causes of revolutions and the factors that shape their outcomes is critical to understanding politics and world history Part One offers a combination of classic treatises and late breaking scholarship that develops students theoretical understanding of revolutionary movements Part Two shows students how these theories play out in real life through rich accessible accounts of major revolutionary episodes in modern history      **Comparative Revolutionary Movements** Pearson Custom Publishing, 1999-12-01      **Comparative Revolutionary Movements [By] Thomas H. Greene** Thomas H. Greene, 1974  
*Revolutions and Revolutionary Movements* James DeFronzo, 2018-05-04 With crucial insights and indispensable information concerning modern day political upheavals Revolutions and Revolutionary Movements provides a representative cross section of the most significant revolutions of the twentieth and twenty first centuries This Fifth Edition is revised and updated with a new chapter on the Arab Revolution from its beginning in December 2010 to the present In this widely used text students can trace the historical development of eleven revolutions using a five factor analytical framework Author James DeFronzo clearly explains all relevant concepts and events the roles of key leaders and the interrelation of each revolutionary movement with international economic and political developments and conflicts including World Wars I and II the Cold War and the War on Terror Student resources include multiple orienting maps summary and analysis sections suggested readings chronologies and documentary resources      *Revolutionary Movements in Central America* Jeff Goodwin, 1988      **No Other Way Out** Jeff Goodwin, 2001-06-18 No Other Way Out provides a powerful explanation for the emergence of popular revolutionary movements and the occurrence of actual revolutions during the Cold War era This sweeping study ranges from Southeast Asia in the 1940s and 1950s to Central America in the 1970s and 1980s and Eastern Europe in 1989 Goodwin demonstrates how the actions of specific types of authoritarian regimes unwittingly channeled

popular resistance into radical and often violent directions By comparing the historical trajectories of more than a dozen countries Goodwin also shows how revolutionaries were able to create opportunities for seizing state power     *Revolutions* Lawrence Kaplan,1973     **Revolutions and Revolutionary Movements** ,2015     **The Anatomy of Revolution** **Revisited** Bailey Stone,2014 This study aims to update a classic of comparative revolutionary analysis Crane Brinton s 1938 study *The Anatomy of Revolution* It invokes the latest research and theoretical writing in history political science and political sociology to compare and contrast in their successive phases the English Revolution of 1640 60 the French Revolution of 1789 99 and the Russian Revolution of 1917 29 This book intends to do what no other comparative analysis of revolutionary change has yet adequately done It not only progresses beyond Marxian socioeconomic class analysis and early revisionist stresses on short term accidental factors involved in revolutionary causation and process it also finds ways to reconcile state centered structuralist accounts of the three major European revolutions with postmodernist explanations of those upheavals that play up the centrality of human agency revolutionary discourse mentalities ideology and political culture
