Dream Green Architecture:

Dream Green Architecture Luis de Garrido, 2014 Intentamos en todo momento conseguir un futuro más estable seguro y feliz y siempre que lo hacemos este futuro se suele asociar con la idea de habitar una vivienda ideal en la cual crear nuestro hogar Una vivienda que se convierta en la caja de resonancia de nuestra propia existencia y que sea capaz de satisfacer nuestras necesidades físicas familiares sociales emocionales psicológicas e incluso espirituales A esta vivienda ideal la solemos calificar como la vivienda de nuestros sueños Y por extrapolación a una arquitectura que sea buena en todos los sentidos la solemos calificar como buena arquitectura

Green Dream Winy Maas, Ulf Hackauf, Pirjo Haikola, 2014 The Why Factory is a global think tank and research institute run by MVRDV and Delft University of Technology and led by professor Winy Maas The Why Factory's Future Cities research programme explores possibilities for the development of our cities by focusing on the production of models and visualizations for cities of the future Book Jacket

Dreaming Green Lisa Sharkey, Paul Gleicher, 2008 For anyone with eco friendly ideals as well as a penchant for high style Dreaming Green showcases seventeen inspiring homes that are at once luxurious beautiful and fashioned inside and out with green materials design and details While renovating their Manhattan brownstone Lisa Sharkey and LEED accredited architect Paul Gleicher's top priority was to create a home that was light on the earth and completely free of the harmful products that are often found in building and decorative supplies A sophisticated couple who entertain frequently Sharkey and Gleicher also demanded a home that was beautiful from the basement to the top floor's sunroom They sourced stylish and elegant materials designed small and large spaces for flawless efficiency and finished the project with responsible yet stunning finds Dreaming Green features the Sharkey Gleicher brownstone as well as sixteen other environmentally responsible impeccably designed residences that will stir readers to reimagine their homes as places that marry responsibility and beauty From cities and suburbs to the countryside Dreaming Green showcases places of myriad sizes shapes and styles Each space with its floors gorgeous fabrics nontoxic paints and finishes wall coverings furniture fixtures use of recycled materials and other details is a treasure for the eye and a gift to the earth What's more Sharkey and Gleicher highlight unseen design elements that conserve resources such as passive heating and cooling methods and ideas for low impact building and renovation among other innovations The spaces on display here prove that saving the earth never needs to compromise comfort and elegance Make yourself at home and lose yourself in An English Tudor style home in Austin Texas that was built from cast earth clay and utilizes a wind powered energy system The home is decorated throughout with gorgeous antiques and salvaged materials An upstate New York eco farmhouse perfectly situated on a hilltop and designed to catch the breezes from the surrounding Berkshire hills The owner architect used local craftspeople none based more than a mile away to further the buy local ideal An Ann Arbor Michigan sunhome built to capture the sun's rays for maximum heating and lighting The modern marvel is U shaped to accommodate an eighty year old magnolia growing on the property A glamorous southern showplace in

Atlanta Georgia which the owners christened Ecomanor It hearkens back to the stateliness of an earlier time but is also a model of contemporary energy efficiency and sustainability Lavishly photographed Dreaming Greenalso boasts an invaluable resource section a boon to anyone embarking on making a green home renovating a current residence into one or just dreaming about doing so Dreaming Greenis both a practical guide and a rich source of inspiration *The Greening of Architecture* Phillip James Tabb,A. Senem Deviren,2017-03-02 Contemporary architecture and the culture it reflects dependent as it is on fossil fuels has contributed to the cause and necessity of a burgeoning green process that emerged over the past half century This text is the first to offer a comprehensive critical history and analysis of the greening of architecture through accumulative reduction of negative environmental effects caused by buildings urban designs and settlements Describing the progressive development of green architecture from 1960 to 2010 it illustrates how it is ever evolving and ameliorated through alterations in form technology materials and use and it examines different places worldwide that represent a diversity of cultural and climatic contexts The book is divided into seven chapters with an overview of the environmental issues and the nature of green architecture in response to them followed by an historic perspective of the pioneering evolution of green technology and architectural integration over the past five decades and finally providing the intransigent and culturally pervasive current examples within a wide range of geographic territories The greening of architecture is seen as an evolutionary process that is informed by significant world events climate change environmental theories movements in architecture technological innovations and seminal works in architecture and planning throughout each decade over the past fifty years This time period is bounded on one end by the awareness of environmental problems beginning in the 1960 s the influential texts by Rachel Carson E F Schumacher Buckminster Fuller and Steward Brand and the impact of the OPEC Oil Embargo of 1973 and on the other end the pervasiveness of the necessary greening of architecture that includes systemic reforms in architectural and urban design land use planning transportation agriculture and energy production found in the 2000 s The greening process moves from remediation to holistic models of architecture Geographical landscapes give a global account of the greening process where some examples are parallel and sympathetic and others are in clear contrast to one another with very individuated approaches Certain events like the Rio Summit in 1992 and Kyoto Protocol in 1997 and themes such as the Hannover Principles in 2000 provide a dynamic ideological critique as well as a formal and technical discussion of the embodied and accumulative content of greening principles in architecture

Redefining Indian Smart & Sustainable Cities Charanjit S Shah,2015-06-06 Redefining Smart Sustainable Cities although has been conceived much earlier and has been continually refined over and over the recent announcement of 100 Smart Cities by the Hon ble Prime Minister of India Mr Narendra Modi and the spate of events thereafter has made the release of the book rather accelerated It unfolds for its readers the thus far little known story about smart cities that have existed since centuries and what the existing cities can learn from them The author has taken interesting habitat traits and important data

points right from prehistoric times to the modern day. Parallels have been drawn from various parts of the globe cutting across time right from the Stone Age to the modern Digital Age. The authors have critically analyzed and shown that since the problems had the same set of root causes the solutions can also lie among some of the thriving and sustainable modern day smart cities of the world. In fact through careful extrapolation of habitat aspects the author has shown that many of the sustainable smart cities today have undergone similar deterioration for at least some time before these cities were restored and made truly smart. Each chapter weaves into it text and explanations written in a direct and simple manner and is interspersed with interesting pictures, drawings, infographics and facts and figures directly relevant to the topic under discussion. This makes the book a very engaging and interesting read.

(Un)Common Precedents in Architectural Design Federica Goffi, Isabel Potworowski, Kristin Washco, 2025-12-31 Un Common Precedents in Architectural Design calls for an attentive examination of the uncommon that inspires creativity, prompting a re-examination of both common and marginalised precedents. Precedents and their origins can be idiosyncratic and it is not surprising that they often lead to unpredictable outcomes. The uncommon is explored as an undervalued, unregulated and informal approach to precedents, acknowledging a radical imagination in architectural design that extends beyond visual and typological considerations, expanding the field of influence beyond buildings to investigate interdisciplinary exchanges and a multisensory imagination. This book addresses a critical need to re-examine architectural precedents, understanding why, how and what we study to reveal the intentions, transmedia explorations and referents behind the workings of a more inclusive architectural imagination nurtured in multicultural practices and teaching environments. Un Common Precedents thus underlines the non-conformity and inordinance of

precedents and the necessity of their divergence drawing attention to different socio political contexts that resist reject and replace the canonisation of precedents based on dominant ocular centric approaches with local experiential transdisciplinary and uncommon ones The book offers an alternative to the compulsion to normalise universalise repeat restate and re enact transforming the documentation of far removed precedents through first person experiences *The Canadian Architect*, 2003

Architect 5 Architect 5 Partnership, 2000 The architecture designed by the Tokyo based firm Architect 5 brings together technical expertise and poetic imagination serving society and analyzing forms As the architects themselves say We enjoy the process of discovering new designs where we find the true joy of creation The versatility characterizing their work is due to their desire to meet all the client s and society s demands producing works ranging from a large urban park to the headquarters of an international enterprise from tower blocks to shopping and entertainment facilities *The Future of the City* Kheir Al-Kodmany, Mir M.
