German Romanticism Christopher R. Clason, Joseph D. Rockelmann, Christina M. Weiler, 2023-03-31 Memory in German Romanticism treats memory as a core element in the production and reception of German art and literature of the Romantic era The contributors explore the artistic expression of memory under the categories of imagination image and reception Romantic literary aesthetics raises the subjective imagination to a level of primary importance for the creation of art It goes beyond challenging reason and objectivity two leading intellectual faculties of eighteenth century Enlightenment and instead elevates subjective invention to form and sustain memory and imagination Indeed memory and imagination both cognitive functions seek to assemble the elements of one's own experience either directed toward the past memory or toward the future imagination coherently into a narrative And like memories images hold the potential to elicit charged emotional responses those responses live on through time becoming part of the spatial and temporal reception of the artist and their work While imagination generates and images trigger and capture memories reception creates a temporal spatial context for art organizing it and rendering it memorable both for good and for bad Thus through the categories of imagination image and reception this volume explores the phenomenon of German Romantic memory from different perspectives and in new contexts *S. and Pilgrims. From Phenomenology to Metaphysics Remigius Cornelis Kwant,1966 Phenomenology has often been accused of denying metaphysics and making metaphysical reflection impossible Several philosophers have tried to reconcile phenomenology with traditional metaphysics but the synthesis usually appeared to be a hybrid of heterogeneous elements Metaphysics cannot be added to phenomenology but must be discovered in it Merleau Ponty has discovered the metaphysical implications of his phenomenological starting point Dr Kwant describes Merleau Ponty s way from phenomenology to metaphysics in his posthumous work The Visible and the Invisible Merleau Ponty does not deny any of his former points of view in the new book but he reflects upon his former principles He now thinks that his former starting point namely the intentional relationship between the body subject and the world is not the real point of philosophical reflection This relationship implies a duality and the philosopher is not allowed to start from duality Merleau Ponty now considers this duality to be the dualization of a preceding unity the unity of Being In this way Merleau Ponty discovers the metaphysical implications of the intentional relationship Dr Kwant s book is a contribution to the solution of the highly important problem of the relationship between phenomenology and metaphysics Provided by publisher Where Runs the River?
