Coding and Documentation Compliance for the ICD and DSM Lisette Wright, S. M. Tobias, Angela Hickman, 2017-01-12 Coding and Documentation Compliance for the ICD and DSM provides professionals, professors, and students with a logical and practical way of understanding a difficult topic in healthcare for the clinician coding. Established professionals will find the tools they need to comply with the ICD series, HIPAA, and integrated care models. Professors and students will appreciate having a systemized, standardized approach to teaching and learning the more complex aspects of ICD compliance. The interplay between the ICD and DSM manuals is also explicated in clear terms. *Solutioning*. Willyn Webb, 2013-08-21 Are you tired of having to compromise your philosophy of counseling to fit the world of managed care? Are you trying to save time while creating a hopeful atmosphere for your clients? Are you looking for more effective ways to encourage responsibility, raise self-esteem, and develop life-long abilities in your clients? This book offers a new strategy for any helping professional who answered yes to the above questions. Based on Solution Focused Brief Therapy, the 4 P Solutioning process provides therapists with key methods to end blaming, encourage responsibility, and empower clients to find and use solutions. Solutioning is not an all-encompassing theory that requires a radical change in philosophy, but a language that promotes growth, change, and flexibility. It encourages the practitioner to blend tried and true techniques with the solutioning attitude and supplementary interventions, allowing the efficiency necessary for managed care survival. This book provides therapists with the language of the 4 Ps, taught using easily accessible practice sheets, skill highlights which focus on pre-existing skills that can be given a solutioning slant, solutioning applications that illustrate how particular interventions apply to common mental health issues, intake, treatment plans, progress notes, and many other usable tools, along with specific adaptations for family couple and play therapy, a complete solutioning group program, and the curriculum for teaching the 4 P process with lessons and handouts. **Successful Private Practice in Neuropsychology and Neuro-Rehabilitation** Mary Pepping, 2014-10-10 This second edition of the original *Successful Private Practice in Neuropsychology* provides an updated overview of key principles and processes for establishing, maintaining, and developing neuropsychology practice and neuro-rehabilitation programs.
