Marketing George Pain,2019-08-07 Do you have a great product or content but have no idea how to get customers Would you like to get started with Facebook Marketing With over 2.07 billion monthly active users it is a no brainer that Facebook advertising provides an advertiser with a humongous outreach opportunity It has certain unique advantages over other forms of advertising that makes Facebook advertising a must have in any savvy advertiser's scheme of things This may come as a surprise to many who think that online advertising begins and ends with Google To them Facebook is merely a social media platform where you catch up with high school classmates and check out what your ex flame is up to But the fact is that savvy marketers and advertisers are increasingly taking to Facebook advertising to market their products and services The fact that Facebook earned a gargantuan 26 billion advertising revenue in 2017 is ample testimony The benefits that accrue from Facebook advertising are quite significant and it is in a marketer's best interest to be fully conversant with them

Facebook Marketing Jack Sanchez,2018-11-13 According to statistics Facebook is home to over 1.5 billion active unique monthly users and generates a whopping 400 million visits every day So it goes without saying that Facebook aside from being a virtual space for friends to connect also shines with the promise of being the single most effective vehicle for

businesses aiming to reach a wider audience And for most businesses today Facebook has served as just that Back in November of 2007 Zuckerberg saw Facebook s potential as the ultimate internet go to for people who want to find local businesses and products they might be interested in Since then the company has executed a variety of functions that cater specifically to businesses to help them maximize the gains of using Facebook as a platform to connect with real prospects without having to go out and find them These days any business that can t be found on Facebook is considered obsolete and outdated With 90% of consumers looking first to Facebook in search of products and services business that operate exclusively outside of the platform risk losing visibility in the midst of thick competition Plus people feel more comfortable transacting with businesses through Facebook It s convenient it s easy and it s familiar and studies have found that prospects that reach out to businesses on Facebook tend to feel more secure knowing they re dealing with an entity that they can trust Why Well it s not entirely clear why Facebook brings an air of familiarity and reliability but many experts believe it s because the platform is used to connect with friends
