Comprendre Le Monde Arabe:

Comprendre le monde arabe Béligh Nabli, 2013-09-25 Le monde arabe est encore trop souvent perçu en Occident comme un bloc homogène et figé. Les clichés sont fortement ancrés dans les imaginaires collectifs. On assimile arabe et musulman et l'on ignore trop la diversité des peuples rattachés de la Mauritanie au sultanat d'Oman. Malgré un patrimoine linguistique et historico-culturel commun, le monde arabe reste un espace fragmenté renfermant des sociétés mosaïques formées de minorités ethniques, religieuses et linguistiques. Si le mythe de l'unité arabe n'a pas résisté la force des particularismes nationaux, les peuples arabes sont encore marqués par une conscience collective et un sentiment de solidarité incarnés par la cause palestinienne. Le fait de destin commun, ce lien immatériel est perceptible dans le mouvement de mobilisations et de soulèvements populaires déclenché depuis 2011. Phénomène marquant de ce début de XXI^e siècle, ce recueil ouvre des perspectives nouvelles pour des Arabes appelés repenser leur propre mode de développement politique, économique et social. De leur capacité à se redéfinir dépendra aussi la place des Arabes dans le nouvel ordre mondial.

Literary Translation, Reception, and Transfer Norbert Bachleitner, 2020-09-21 The three concepts mentioned in the title of this volume imply the contact between two or more literary phenomena; they are based on similarities that are related to a form of travelling and imitation or adaptation of entire texts, genres, forms or contents. Transfer comprises all sorts of travelling with translation as a major instrument of transferring literature across linguistic and cultural barriers. Transfer aims at the process of communication starting with the source product and its cultural context and then highlighting the mediation by certain agents and institutions to end up with inclusion in the target culture. Reception lays its focus on the receiving culture, especially on criticism, reading and interpretation. Translation therefore forms a major factor in reception, with the general aim of reception studies being to reveal the wide spectrum of interpretations each text offers. Moreover, translations are the prime instrument in the distribution of literature across linguistic and cultural borders; thus they pave the way for gaining prestige in the world of literature. The thirty-eight papers included in this volume and dedicated to research in this area were previously read at the ICLA conference 2016 in Vienna. They are ample proof that the field remains at the center of interest in Comparative Literature.

Les crises politiques au prisme des trajectoires militantes dans le monde arabe et ses diasporas, 2025-02-27 Que font les crises politiques aux individus ? Comment les affectent-elles ? Le présent dossier dialogue avec les travaux sur le protagonisme et ceux sur les bifurcations et les reconversions militantes pour étudier les incidences de tels moments sur les trajectoires biographiques. Qu'il s'agisse de militants aguerris ou d'individus ordinaires politisés dans et par l'événement, les articles croisant histoire, sociologie et science politique permettent tout aussi bien de saisir ce qui se joue dans ce moment de fluidité que d'étudier comment celui-ci se traduit par la suite dans des arrangements biographiques partiels ou globaux. Dans une perspective microsociologique attentive aux expériences, aux subjectivités et aux trajectoires, c'est le je du participant engagé dans la crise et son inscription dans un nous collectif qui se
