**GENRE:**  
Dystopian Fiction;  
Allegorical Fiction

**SETTING:**  
Deserted Tropical  
Island

**YEAR PUBLISHED:**  
1954

**AUTHOR:**  
William Golding

*Lord of the Flies* tells the story of a group of British boys marooned on an island, free from the rules that adult society formerly imposed on them. The boys struggle with the conflicting human instincts that exist within each of them—the instinct to work toward civilization and order and the instinct to descend into savagery, violence, and chaos.

## Plot Overview

**Rising Action:** When rumors surface that there is some sort of beast living on the island, the boys grow fearful, and the group begins to divide into two camps supporting Ralph and Jack, respectively.

**Climax:** When Simon tries to approach the other boys and tell them the Lord of the Flies is not a real beast, they kill Simon savagely.

**Falling Action:** The boys descend further into savagery and chaos. When the other boys kill Piggy and destroy the conch shell, Ralph flees from Jack's tribe and encounters the naval officer on the beach.

**Transiciones** Todd Ruecker, 2015-02-15 Transiciones is a thorough ethnography of seven Latino students in transition between high school and community college or university Data gathered over two years of interviews with the students their high school English teachers and their writing teachers and administrators at postsecondary institutions reveal a rich picture of the conflicted experience of these students as they attempted to balance the demands of schooling with a variety of personal responsibilities Todd Ruecker explores the disconnect between students writing experiences in high school and

higher education and examines the integral role that writing plays in college. Considering the almost universal requirement that students take a writing class in their critical first year of college, he contends that it is essential for composition researchers and teachers to gain a fuller understanding of the role they play in supporting and hindering Latina and Latino students' transition to college. Arguing for situating writing programs in larger discussions of high school college alignment, student engagement and retention, *Transiciones* raises the profile of what writing programs can do while calling composition teachers, administrators and scholars to engage in more collaboration across the institution, across institutions and across disciplines to make the transition from high school to college writing more successful for this important group of students.
