Children's Errors in Mathematics Doreen Drews, John Dudgeon, Alice Hansen, Fiona Lawton, Liz Surtees, 2005-07-07 This practical guide to children's common errors and misconceptions in mathematics is ideal for anyone training to teach 4-11 year old children and keen to gain a deeper understanding of the difficulties children encounter during their mathematical development. The book is structured around National Curriculum Attainment Targets and deals with individual misconceptions in each case providing a description of the error and an explanation of why the error happens. **Maths**

Paul Broadbent, 2010-10 Complete coverage of the KS1 Math curriculum is provided in this accessible revision guide. Your child can prepare for in-school assessments and test with confidence. The engaging characters motivate children to test their knowledge and improve their understanding of the topics covered in school. **The Really Useful ICT Book** Jill Jesson, Graham Peacock, 2012-10-12 The Really Useful ICT Book is a practical and easy-to-use guide to give you all the confidence you need to use ICT really effectively inside and outside the primary classroom. It makes clear how ICT can be taught as a standalone subject and how it can be used easily and imaginatively to enhance teaching other subjects. Jam-packed with ideas and templates to save you time, this friendly handbook offers an introduction to using ICT inside the classroom including interactive whiteboards, computer suites, VLEs and e-safety using ICT outside the classroom including word processors, laptops, data loggers and digital cameras, when and how to use a wide range of software and hardware from spreadsheet packages through to digital photography, e-portfolios and software simulation using ICT in all subject areas, practical suggestions for using ICT in cross-curricular topics, using ICT to develop teacher and pupil creativity, using ICT for assessment and in your professional role. With an emphasis on developing children's creativity and on progression from Key Stage 1 to Key Stage 2, The Really Useful ICT Book is a comprehensive compendium of advice and inspiration for all training, newly qualified and experienced teachers as well as those in support roles in primary schools. **Science 5-11** Alan Howe, Christopher Collier, Kendra McMahon, Dan Davies, 2013-04-15 This second edition of the bestselling textbook Science 5-11 provides a synthesis of ideas about teaching and learning that focuses on answering the question: How best should I teach science? Offering a practical and innovative guide which is ideal for students, trainee and practising teachers, the book provides full information on the appropriate science topics for Key Stage 1 and 2, outlining the subject knowledge that a teacher needs, the curriculum requirements and the best ways to go about teaching with an emphasis on practical science enquiry. Fully updated to include the possibilities for talk and discussion within science lessons, how children might record their ideas and findings, how ICT can be incorporated into lessons, how science can be linked to other subjects in a creative and cross-curricular way, Citizenship and education for sustainable development. The authors draw on their expertise to identify approaches to teaching that are best used in different areas of science and help readers understand key teaching issues by considering them in relation to specific contexts. With advice on lesson planning and a user-friendly structure, this
