SAIL TOWNSHIP, RANCHI
ANNUAL EXAMINATION (2017-18)

Class:- VI
Time:- 2½ Hrs.

Subject:- English
F. M:- 80

SECTION A (READING) **[20 marks]**

Q.1 **Read the following passage carefully.** **[12 marks]**

Animals are great builders, using simple materials but employing sound engineering principles. Man has long used suspension bridges – ropes of steel and concrete-which bear loads in tension. The webs of spiders provide the most vivid examples of animal structures built entirely in tension. Spider web silk is so strong that many species of birds use it to build their nests. Unlike steel, silk stretch to more than twice its original length before breaking.

Beavers are natural engineers. They use tree branches to construct dams. The divided end is pressed into the walls; this makes the dam strong enough to withstand the pressure of water. The dams of the beaver have an angle of 45 degrees on the downstream side. These also help the dam to resist the pressure of water.

Constructing a very thick wall is uneconomical. Strength could also be provided to a thin wall by making the base wide. The nest of the termite *Amiteces Meridionalis* is more than two meters high with a wide base which tapers at the top. This ensures greater resistance to wind forces.

1.1 **On the basis of the reading of the passage, answer the following questions in brief.** **[1x5=5]**

- a) Write a suitable title to this passage
- b) Mention any one aspect of engineering which is touched upon in this passage?
- c) What do spider-web silk and bridges have in common?
- d) Why do beavers build dams on an angle of 45 degrees?
- e) What can we learn from a species of termites?

1.2 **Fill in the blanks with the ideas from the passage.** **[1x5=5]**

- a) Animals use i)_____ building materials but ii)_____ engineering principles.
- b) The idea of building bridges is taken from the i)_____ who build their webs on the principle of ii)_____.
- c) Beavers who are known as i)_____ use tree branches to construct their dams.

1.3 **Find words from the passage that mean:** **[1x2=2]**

- a) Producing strong, clear images in the mind (Para 1)
- b) Try to prevent (Para 2)

Q.2 **Read the following passage with care.** **[8 marks]**

There was great feasting in the city of Troy that night. Sinon had told his story well, and the Trojans really believed that they were safe at last, their long siege was ended, and, with their own eyes, they had seen the hated Greeks sail away. The walls had been broken and the great wooden horse had been dragged into the city and placed before the temple of Athens. Now all the Trojans were lying in a heavy, dreamless sleep, and Sinon stole gently through the silent streets towards the high watch – tower. No guard was there : they were all sleeping or feasting still. Sinon lighted a great fire in the tower, and then made his way to the temple, to where the wooden horse shone white in the moonlight. He called in a low voice to the heroes inside, and they all came out, down the ladder which Epeus had built for them. Each man's heart beat loudly as he seized his weapons and made ready to attack the sleeping city. They ran to the doors of the nearest houses and began to burn and kill, and the rest of the army --- returning in their ships--- poured in through the break in the walls, and Troy was won.
