The Army Lawyer, 1984 **STP 21-1-SMCT Soldier's Manual of Common Tasks** Headquarters Department of the Army, 2020-08-21 LARGE FORMAT 8 1 2 by 11 inches September 2017 The Army's basic mission is to train and prepare Soldiers leaders and units to fight and win in combat As explained in the Army's capstone training doctrine ADP 7 0 units do not have the time or the resources to achieve and sustain proficiency with every possible training task Therefore commanders must identify the tasks that are the units critical wartime tasks These tasks then become the unit's Mission Essential Task List Commanders use the METL to develop their unit training plan Noncommissioned officers plan the individual training that Soldiers need to become warriors and to accomplish the METL The STPs also known as Soldier's

manuals provide the critical individual tasks for each military occupational specialty that support all of the unit's missions. The NCO leadership uses the tasks in the SMs to train the Soldiers and measure the Soldiers' proficiency with these unit critical tasks. The manuals provide task performance and evaluation criteria and are the basis for individual training and evaluation in the unit and for task-based evaluation during resident training. Why buy a book you can download for free? We print the paperback book so you don't have to. First you gotta find a good clean legible copy and make sure it's the latest version, not always easy. Some documents found on the web are missing some pages or the image quality is so poor they are difficult to read. If you find a good copy you could print it using a network printer you share with 100 other people, typically it's either out of paper or toner. If it's just a 10-page document, no problem, but if it's 350 pages, you will need to punch 3 holes in all those pages and put it in a 3-ring binder. Takes at least an hour. It's much more cost-effective to just order the bound paperback from Amazon.com. We include a Table of Contents on the back cover for quick reference. We print these paperbacks as a service so you don't have to. The book is compact, tightly bound paperback, full size 8 1/2 by 11 inches, with large text and glossy covers. 4th Watch Publishing Co. is a SDVOSB <https://usgovpub.com>

Keenan, 2005

Soldiers in the 21st century must possess the knowledge, skills, and other attributes to perform effectively in complex, technical, information-rich environments. This study, *Development of a Prototype Self Assessment Program in Support of Soldier Competency Assessment*, was conducted as a counterpart to the U.S. Army Research Institute for the Behavioral and Social Sciences (ARI) *Performance Measures for 21st Century Soldier Assessment*. PerformM21 is a 3-year feasibility effort to identify viable approaches for an operational performance assessment system for Army enlisted personnel. In this study, the researchers identified the design and content of a self-assessment system (SAS) that would help Soldiers feel confident about testing, b) inform Soldiers about the junior noncommissioned officer (NCO) promotion system, and c) familiarize Soldiers with the duties and responsibilities of NCOs. Information about best practices in the field of self-assessment test preparation, including what is done in the other Armed Services academies and the test industry, was used to develop a prototype SAS that would explore the realm of test preparation functions, actions, and items that a typical Soldier would encounter during this phase. The prototype SAS reflects PerformM21 test parameters; it is web-based, targeted to E4 Soldiers, and focuses on the Army-wide core assessment Pillar of **Administration & Management**, 1982-07.
