On the Road to High-Quality Early Learning Marjorie E. Wechsler, David L. Kirp, 2018 This timely book will help policymakers and practitioners convert their visions of high quality early education into on the ground reality by providing a much needed, richly detailed look at how states can design, fund and manage exemplary programs. The authors describe and analyze how four states: Michigan, West Virginia, Washington and North Carolina have built early education systems that positively affect student outcomes. Sharing a commitment to advancing key elements of a quality preschool education, each of the states developed programs with different enrollment requirements, services and oversight. All of them, however, rely on common overarching strategies such as establishing standards and supporting improvement, investing in knowledgeable educators, coordinating and aligning early education programs with elementary school, seeking sufficient funding sources and mechanisms and building broad based support. This book offers powerful lessons for anyone who is committed to delivering engaging, age appropriate preschool programs for all. This book is so valuable it's a how-to for the current generation of political leaders. Republicans and Democrats alike who want to develop early education policies and practices that work. James B. Hunt Jr, former Governor of North Carolina. This book provides critical insights for addressing the key challenge to preschool policy: fulfilling preschool's promise at scale. W.
