

2024 ECONOMICS 12 MACROECONOMICS ESSAYS (P1)

A. CIRCULAR FLOW

1. Discuss in detail the markets within the FOUR-SECTOR model. (26 marks)

INTRODUCTION

- ✓ **Market** is the mechanism that brings buyers and sellers together to exchange goods and services. ✓✓
- ✓ Markets coordinate economic activities and determine prices of goods and services. ✓✓

BODY

PRODUCT AND FACTOR MARKETS

Product market/Goods/Output markets ✓

- Product market is where goods and services are exchanged for money. ✓✓
- E.g. Shoprite retailer. ✓
- These are markets for consumer goods and services. ✓✓
- **In economics a distinction is made between goods and services:**
- Goods are defined as any tangible items such as clothing, food cars that satisfy human wants or need. ✓✓
- Capital and consumer goods are traded in these markets. ✓✓
- Capital goods market are trading buildings and machinery. ✓✓
- Consumer goods markets are trading durable consumer goods, semi-durable goods and non-durable goods. ✓✓
- Services are defined as non-tangible actions e.g. wholesalers and retailer, transport and financial markets. ✓✓

Factor market/Resource/Input markets ✓

- Factor market is where factors of production are traded. ✓✓ e.g. labour is hired and capital is borrowed. ✓✓
- Households sell factors of production in this market. ✓✓
- These services earn wages for labour, interest for capital, rent for natural resources and profits for entrepreneurship. ✓✓
- Labour can be bought and sold in this market. ✓✓
- Factor market includes labour, property and financial markets. ✓✓
 - ✓ Product markets and factor markets are related in the sense that the demand for factor services is a derived demand. ✓✓

Economics Essay Grade 14 2014:

Innovation, Economic Development, and Intellectual Property in India and China Kung-Chung Liu, Uday S.

Racherla, 2019-09-06 This open access book analyses intellectual property codification and innovation governance in the development of six key industries in India and China. These industries are reflective of the innovation and economic development of the two economies or of vital importance to them: the IT Industry, the film industry, the pharmaceutical industry, plant varieties, and food security, the automobile industry, and peer production and the sharing economy. The analysis extends beyond the domain of IP law and includes economics and policy analysis. The overarching concern that cuts through all chapters is an inquiry into why certain industries have developed in one country and not in the other, including the role that state innovation policy and/or IP policy played in such development, the nature of the state innovation policy, IP policy, and whether such policy has been causal, facilitating, crippling, co-relational, or simply irrelevant. The book asks what India and China can learn from each other and whether there is any possibility of synergy. The book provides a real life understanding of how IP laws interact with innovation and economic development in the six selected economic sectors in China and India. The reader can also draw lessons from the success or failure of these sectors. **Virtue as Identity** Aleksandar

Fatic, 2016-07-11 Virtue as Identity offers a study of how virtue is learned and identity acquired through the selection and internalization of values. A large part of this process is externally imposed through culture. Another, perhaps more important part of the process is the result of individual and collective sensibilities. The book emphasizes the role of emotions and emotional sensibility in our choice of values. The book reaffirms traditional morality as the foundation of our individual and collective identities. The author argues that emotions as well as rational decisions guide the value choices we make and the ideals of character that we presuppose on a political level as much as they do in our private lives. Thus, the societies we live in are a reflection of our identities or the identities of the majority. This opens up radical questions about the identities of the dissenting minorities, the proper concept of a moral or value community, and the real reach and value of tolerance in modern democracy. **English Language in India** Jaskiran Bedi, 2019-08-13 This book examines the relationship between the

English language and growth, economic and inclusive, in India. It explores why English continues to be the language of aspiration long after Independence. With the second largest English speaking population in the world today, India is testimonial to how a linguistic legacy continues to cast a long shadow on its contemporary discourse in the economic arena. The volume explores how English language proficiency constitutes as human capital. Draws in the latest India Human Development Survey data. Investigates the relationship between the language and economic indicators such as wages, household income, and state growth. Further investigates the role of English language in the inclusivity of growth. Provides a snapshot of the pedagogy of English in the Indian education system. First of its kind in scope, this volume will be of great interest to scholars of economics, education, sociolinguistics, development studies, politics, and sociology. It will also be of great

interest to the general reader **Innovation in China** William H.A. Johnson, 2015-07-22 The word innovation is often used today regarding China as if the concept were new to the Eastern country Most people know however that China was a juggernaut in creating new technologies and at one time was the innovation king of the world but that was at least seven centuries ago Today the great oriental power is attempting once again to take the throne of innovation for its own This desire to usurp the throne which had been diligently taken by the West during the Scientific Revolution has placed an almost unrealistic emphasis on innovation In *Innovation in China The Tail of the Dragon* the author explores the issues and actors involved in making innovation the emphasis in China He uses a simple systems model of innovation and various perceptual lenses The lenses are aimed at the historical economic political legal educational and cultural elements of an innovation based society After reading the book the reader will understand more about how innovation is happening in China and by whom More importantly the reader will begin a journey of learning more about where the country is going as it relentlessly continues its drive to create an innovation based society and to become once again in terms appropriate to its history the Emperor of Innovation *The Cambridge Encyclopedia of Child Development* Brian Hopkins, Elena Geangu, Sally Linkenauger, 2017-10-19 Updated and expanded to 124 entries The Cambridge Encyclopedia of Child Development remains the authoritative reference in the field International Practices to Promote Budget Literacy Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09 Budget literacy is defined as the ability to read decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process It is comprised of two main parts i a technical understanding of public budgets including familiarity with government spending tax rates and public debt and ii the ability to engage in the budget process comprising of practical knowledge on day to day issues as well as an elementary understanding of the economic social and political implications of budget policies the stakeholders involved and when and how to provide inputs during the annual budget cycle Given that no international standards or guidelines have been established for budget literacy education to date this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries The underlying presumption is that when supply side actors in the budget process governments simplify and disseminate budget information for demand side actors citizens this information will then be used by citizens to provide feedback on the budget However since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures and the confidence and sense of social responsibility to participate in the oversight of public resources This book elaborates on approaches learning outcomes pedagogical strategies and assessment approaches for budget literacy education and presents lessons that are relevant for the development improvement or scaling up of budget literacy initiatives TV's American

Dream Barbara Selznick, 2025-01-23 TV's American Dream examines how the U.S. television industry in the 2010s pursued audiences whose ideas about hope, fairness, work, and economic class were shaped by the Great Recession. While Americans navigated the trauma of the economic meltdown, the television industry faced growing pressure stemming from new program distribution and viewing methods, increasingly fragmented audiences, shifts in methods of advertising, and regulatory changes. To cut through the clutter of television content to appeal to elusive viewers, television programming reimagined some of the traditional representations of the American Dream and continued to bolster others. Exploring shows on different platforms from legacy networks to Netflix, Selznick takes a deep dive into representations of the American Dream on television. Each chapter of this book focuses on a particular strategy mobilized in the second decade of the new century to speak to audiences about their expectations for and concerns about the Dream. Bringing together research on industrial practices with an examination of sociocultural context, TV's American Dream demonstrates how interconnected forces give rise to the television programs that reinforce and redefine audiences' ideas about the world in which they live.
