Handbook of Case Study Research in the Social Sciences Peter Rule, Vaughn M. John, 2024-10-03 In this Handbook Peter Rule and Vaughn M John bring together international experts to provide a thorough overview of case study research in the social sciences Analysing both historical and contemporary examples the Handbook contains a comprehensive grounding for both experienced and novice researchers in case study theory and methodology drawing out the challenges as well as the prospects for its development *Struggling to Make the Grade: A Review of the Causes and Consequences of the Weak Outcomes of South Africa's Education System* Mr. Montfort Mlachila, Tlhalefang Moeletsi, 2019-03-01 While South Africa has made significant improvements in basic and tertiary education enrollment the country still suffers from significant challenges in the quality of educational achievement by almost any international metric The paper finds that money is clearly not the main issue since the South Africa's education budget is comparable to OECD countries as a percent of GDP and exceeds that of most peer sub Saharan African countries in per capita terms The main explanatory factors are complex and multifaceted and are associated with insufficient subject knowledge of some teachers history race language geographic location and socio economic status Low educational achievement contributes to low productivity growth and high levels of poverty unemployment and inequality Drawing on the literature the paper sketches some policy considerations to guide the debate on what works and what does not **The Oxford Handbook of Industrial Policy** Arkebe Oqubay, Christopher Cramer, Ha-Joon Chang, Richard Kozul-Wright, 2020-10-20 Industrial policy has long been regarded as a strategy to encourage sector industry or economy wide development by the state It has been central to competitiveness catching up and structural change in both advanced and developing countries It has also been one of the most contested perspectives reflecting ideologically inflected debates and shifts in prevailing ideas There has lately been a renewed interest in industrial policy in academic circles and international policy dialogues prompted by the weak outcomes of policies pursued by many developing countries under the direction of the Washington Consensus and its descendants the slow economic recovery of many advanced economies after the 2008 global financial crisis and mounting anxieties about the national consequences of globalization The Oxford Handbook of Industrial Policy presents a comprehensive review of and a novel approach to the conceptual and theoretical foundations of industrial policy The Handbook also presents analytical perspectives on how industrial policy connects to broader issues of development strategy macro economic policies infrastructure development human capital and political economy By combining historical and theoretical perspectives and integrating conceptual issues with empirical evidence drawn from advanced emerging and developing countries The Handbook offers valuable lessons and policy insights to policymakers practitioners and researchers on developing productive transformation technological capabilities and international competitiveness It addresses pressing issues including climate change the gendered dimensions of industrial policy global governance and technical change Written by leading international thinkers on the

subject the volume pulls together different perspectives and schools of thought from neo classical to structuralist development economists to discuss and highlight the adaptation of industrial policy in an ever changing socio economic and political landscape *Farmer's Weekly*, 1924 *Decentralization and Constitutionalism in Africa* Charles M. Fombad, Nico Steytler, 2019-09-10 This collection of essays assesses the efforts of African governments to constitutionalise decentralisation be it in the form of federalism local government or traditional authorities Since the end of the Cold War jurisdictions across Africa have witnessed an ostensible return to multi party democracy within the paradigm of constitutionalism and the rule of law Linked to the democratisation process many countries took steps to decentralize power by departing from the heavily centralized systems inherited from colonial regimes The centralization of power typically characterized by the personalization and concentration of power in the hands of leaders and privileged elites in capital cities mostly resulted in repressive regimes and fragile states As decentralisation is a response to these challenges this volume analyses the dynamic relationship between the efforts to implement decentralization and presence or absence of constitutionalism This volume examines a variety of forms and degrees of decentralization found across Africa It advances a new understanding of trends and patterns and facilitates the exchange of ideas among African governments and scholars about the critical role that decentralisation may play in democratization of and constitutionalism in Africa This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read on the Oxford Academic platform and offered as a free PDF download from OUP and selected open access locations **The International after 150 Years** George Comninel, Marcello Musto, Victor Wallis, 2017-10-02 The International Workingmen s Association was the prototype of all organizations of the Labour movement and the 150th anniversary of its birth 1864 2014 offers an important opportunity to rediscover its history and learn from its legacy The International helped workers to grasp that the emancipation of labour could not be won in a single country but was a global objective It also spread an awareness in their ranks that they had to achieve the goal themselves through their own capacity for organization rather than by delegating it to some other force and that it was essential to overcome the capitalist system itself since improvements within it though necessary to pursue would not eliminate exploitation and social injustice This book reconsider the main issues broached or advanced by the International such as labor rights critiques of capitalism and the search for international solidarity in light of present day concerns With the recent crisis of capitalism that has sharpened more than before the division between capital and labour the political legacy of the organization founded in London in 1864 has regained profound relevance and its lessons are today more timely than ever This book was published as a special issue of *Socialism and Democracy* *AFCAT Air Force Common Admission Test Flying, Technical & Ground Duty Branches Solved Papers 2024-2011 (Verbal Ability + General Awareness + Numerical Ability + Reasoning and Military Aptitude Test* Team Prabhat, 2024-12-12 The AFCAT Air Force Common Admission Test is a highly competitive exam conducted by the Indian Air Force for the recruitment of officers in the Flying
