

1. Determinants of the price elasticity of demand

Consider some determinants of the price elasticity of demand:

- The availability of close substitutes
- Whether the good is a necessity or a luxury
- How broadly you define the market
- The time horizon being considered

A good with many close substitutes is likely to have relatively elastic demand, since consumers can easily choose to purchase one of the close substitutes if the price of the good rises.

A good's price elasticity of demand depends in part on how necessary it is relative to other goods. If the following goods are priced approximately the same, which one has the least elastic demand?

- ☐ Yacht
- ✓ ☒ Amputation procedures for diabetes sufferers

approximately the same, which one has the most elastic demand?

- ☐ A heart valve for heart attack victims
- ✓ ☒ Diamond necklace

approximately the same, which one has the most elastic demand?

- ☐ Chemotherapy for cancer patients
- ✓ ☒ Sports car

The price elasticity of demand for a good also depends on how you define the good.

Organize the goods found in the following table by indicating which is likely to have the most elastic demand, which is likely to have the least elastic demand, and which will have demand that falls in between.

Categories	Most Elastic	In Between	Least Elastic
Merlot	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Beverages	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Wine	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

Categories	Most Elastic	In Between	Least Elastic
Red bell peppers	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Food	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>
Vegetables	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>

Categories	Most Elastic	In Between	Least Elastic
Boot-cut jeans	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>
Pants	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>
Clothing	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>

The price elasticity of demand is also affected by the given time horizon.

Compared to the short-run demand for oil, the demand for oil in the long run will tend to be more elastic.

Other things being equal, the demand for natural gas will tend to be less elastic in the short run than in the long run.

If the price of gasoline is relatively high for a long time, consumers are more likely to buy more fuel-efficient cars or switch to alternatives like public transportation. Therefore, the demand for gasoline is less elastic in the short run than in the long run.
