This book offers a roadmap for conducting continuous school improvement work illustrating the common stages of the process Using improvement science principles and an equity perspective this book demonstrates how schools and districts can increase their efficacy and how teachers and leaders can improve their practice for the benefit of all students Through eight case studies representing a variety of K 12 school and community settings the authors address a range of critical student needs in literacy math special education and social learning Each case describes how the leaders and their staff engaged in careful exploration of specific problems and their causes as well as their thoughtful development and testing of solutions The text analyzes how the leaders their teachers and other staff gained collaborative inquiry capacities and reduced inequities to improve student outcomes particularly for those most challenged Each case concludes with leaders reflections and discussion questions to prompt others engaging in similar work A summative chapter reflects on the leadership lessons for equity focused improvement efforts

Book Features

- Explains how school leaders used improvement science informed processes to address common problems of practice
- Offers a roadmap for conducting continuous school improvement work illustrating the common stages of the process
- Provides cases from a diverse range of school and district settings including urban and suburban schools elementary middle and high schools and specialized schools
- Illustrates each case study with fishbone and driver diagrams and Plan Do Study Act PDSA cycles
- Includes reflection and discussion questions appropriate for individual readers education courses and book study groups

Implementing NCLB Paul Kimmelman, 2006-03-23

Implementing NCLB is an important guide to thinking about how to create the infrastructure to support sustained school improvement Kimmelman s extensive experience as an educator coupled with his understanding of policymaking and research allow him to transcend the silos that too often constrain thinking about these issues

Andrew J Rotherham Co Director Education Sector Senior Fellow Progressive Policy Institute Member Virginia Board of Education This inspirational book provides a convincing and compelling call to action Kimmelman provides plenty of practical examples and moves easily between specific applications and the big picture

Michael Fullan Professor OISE University of Toronto I believe this book should be read by every administrator and teacher leader It provides a framework for schools to address the need for continuous school improvement in order to meet the expectations of NCLB

Theron J Schutte Superintendent Boone Community School District IA How can NCLB directives be successfully applied to school improvement efforts Meeting the requirements of NCLB is a monumental task In a concise straightforward manner author Paul L Kimmelman shows readers how to overcome this challenge by building organizational capacity through a knowledge model This model provides a simple but effective framework for evidence based continuous improvement that complies with the fundamental underpinnings of NCLB

Key features include

- A context setting overview of the politics and education initiatives that led to NCLB
- An analysis of what educational leadership means in an age of accountability
- Lessons in leadership from educators scientists explorers and entrepreneurs
- Practical examples reflective questions and action ideas to help link concepts to specific applications

Recommended resources publications and products to help build organizational capacity Intended for educators and administrators who have an active role in leading their school or district improvement activities this book will also be an essential resource for focusing the efforts of school improvement and learning teams
