

CHAPTER 1

DAMAGE CONTROLMAN RATING

Learning Objectives: Recall the primary duties and responsibilities of personnel in the Damage Controlman rating, the duties and responsibilities for damage control of other key personnel in the chain of command, and the various damage control administrative programs, directives, and reports.

The Damage Controlman rating is a general rating and has no service ratings associated with it. As you become familiar with the requirements for advancement in this rating, you will recognize that the requirements for the rating are quite extensive.

RATING RESPONSIBILITIES

Learning Objective: Recall the duties and responsibilities of the Damage Controlman rating.

As a Damage Controlman, your tasks and duties will include the following:

- Organizational and intermediate level maintenance and repair of damage control equipment and systems.
- Plan, supervise, and perform tasks necessary for damage control, ship stability, preservation of watertight integrity, fire fighting, and chemical, biological, and radiological (CBR) warfare defense.
- Instruct and coordinate damage control parties.
- Instruct personnel in the techniques of damage control and CBR defense.
- Supervise and perform tasks in procurement and issuance of supplies and repair parts; and prepare records and reports.

LEADERSHIP

As you advance in the Damage Controlman (DC) rating, you will have increasing responsibilities for military and technical leadership. Every petty officer must be a military leader as well as a technical specialist; however, your responsibilities are unique to the DC rating and are directly related to the nature of your work. Your ability to lead others is particularly important because in casualty situations damage control often becomes an "all-hands" evolution. In

these situations, a Damage Controlman holds a key position in the damage control organization and is required to coordinate the efforts of others for the successful control of damage. For these reasons, you must possess qualities of leadership as well as be highly skilled and knowledgeable in the field of damage control.

Organization and teamwork are the keys to successful damage control. Strong leadership is required to keep the organization functioning and to ensure effective teamwork needed to meet the following goals:

1. Preserve or reestablish watertight integrity, stability, maneuverability, and offensive power.
2. Control list and trim.
3. Repair material and equipment.
4. Limit the spread of, and provide protection from fire.
5. Limit the spread of, remove the contamination by, and provide adequate protection against chemical and biological agents or noxious gases and nuclear radiation.
6. Care for wounded personnel.

BASIC OBJECTIVES OF DAMAGE CONTROL

Shipboard damage control is designed to work toward three basic objectives. These objectives are as follows:

1. Take all practicable preliminary measures to prevent damage.
2. Minimize and localize damage as it occurs.
3. Accomplish emergency repairs as quickly as possible, restore equipment to operation, and care for injured personnel.

The damage control organization has the same objectives whether the country is at peace or at war. The ship's ability to perform its mission will depend upon the effectiveness of its damage control organization.
