**Standards-Based Lesson Plans for the Busy Elementary School Librarian** Joyce Keeling, 2017-04-17 This helpful resource provides all new tested standard based lessons accompanied by reproducible handouts and easy to follow directions. A new book by Joyce Keeling, an elementary librarian and teacher with more than two decades experience, *Standards-Based Lesson Plans for the Busy Elementary School Librarian* presents many integrated lesson plans for students in each of the elementary grades kindergarten through 5th grade. All lessons have been tested and refined in a school setting and they are specifically written to match the AASL Information Literacy Standards, the McREL Compendium of Standards and Benchmarks, and the Common Core State Standards. In addition to the reproducible lesson plan worksheets, the book offers in-depth discussion of how best to collaborate to teach information literacy within the scope of common elementary school curricula.

*Inquiry and the Common Core* Violet H. Harada, Sharon Coatney, 2013-12-16 Practicing librarians and library educators demonstrate the power of inquiry to achieve the Common Core State Standards (CCSS) and promote school librarians as key partners in implementing this type of critical teaching and learning in K-12 schools. With the adoption of the CCSS in most of the nation's schools, educators and administrators at K-12 schools have a pressing need to find the best ways to implement these rigorous and comprehensive standards that challenge students to understand informational text and digital content at increasing levels of complexity. This text provides faculty with much needed support in achieving this critical goal, thoroughly describing inquiry learning and how it links to the CCSS. The authors, nearly 30 contributors total, comprising librarians, library media specialists, educational leaders, teachers from the kindergarten level to college professors, and administrators, each with direct experience and knowledge regarding the subject matter, explain how the standards' emphasis on in-depth investigation and evidence-based reading and writing skills dovetail perfectly with inquiry-based learning initiatives. Acclaimed thought leaders such as Jean Donham, Kristin Fontischiaro, Leslie Maniotes, and Barbara Stripling clearly define and illuminate the librarian's role in school initiatives today and share lesson plans that have been proven effective in actual practice.
