

## **Gila County Provisional Community College District (Gila Community College)**

**CONCLUSION:** Gila County Provisional Community College District is responsible for preparing its annual financial report, maintaining effective internal controls, and being accountable for its use of public monies. Our Office is responsible for auditing the District's financial statements annually.

Based on our audits, we issued modified opinions on the District's financial statements and issued a report on internal control and on compliance over financial reporting. The information in the District's fiscal year 2014 financial statements is reliable except for certain amounts reported for the District's capital assets, program revenues, and expenses/expenditures. The financial statements of the District's foundations were not audited. Our Office identified internal control weaknesses over financial reporting that resulted in these modified opinions. These findings are summarized below.

### **Summary of audit findings and recommendations**

The District did not have adequate internal controls over its accounting system and accounting records. The deficiencies in its accounting records were most notably for certain capital assets, program revenues, and expenses/expenditures. Our report on internal control and on compliance over financial reporting includes a schedule of findings and recommendations that contains further details to help the District correct the internal control weaknesses and instances of noncompliance identified. The most significant findings and recommendations are summarized below.

**District had inadequate internal controls over its accounting system and records—**The District did not maintain effective internal controls over financial reporting because it did not have an adequate accounting system and records to support all reported amounts and disclosures. Consequently, we were unable to determine whether certain depreciable capital assets, program revenues, and expenses/expenditures reported for governmental activities and the general fund were accurate and complete.

**District management lacked finance and accounting expertise—**The District's management lacked the finance and accounting expertise to establish effective internal control policies and procedures over financial reporting and maintain a reliable system of accounting and recordkeeping to support reported amounts and disclosures in its financial statements. These deficiencies were most notably for certain capital assets, program revenues, and expenses/expenditures. Although the District contracted with accounting professionals to prepare its financial statements, the District's management lacked the expertise to prepare and maintain adequate accounting records needed to prepare reliable financial statements and, therefore, could not effectively monitor and review the financial statements the accounting professionals prepared.

**District did not meet its reporting requirements—**The District did not issue its financial statements and budgeted expenditure limitation report within 9 months after fiscal year-end as required by Arizona Revised Statutes (A.R.S.) 541-1279.07(C).

### **Recommendations**

The District should:

- Employ or contract with persons who have the necessary finance and accounting expertise to develop and implement written internal control policies and procedures for financial reporting and who will also perform the ongoing recordkeeping and maintenance of the accounting system; prepare, organize, and maintain all supporting invoices and other records; and prepare appropriate journal entries when necessary.
