Thug Criminology Adam Ellis, Olga Marques, Anthony Gunter, 2023-06-26 Thug Criminology combines the urgent and as yet silenced voices of former gang street involved peoples turned academics alongside their allies in order to challenge and disrupt mainstream and academic knowledge about urban youth gangs specifically and the streets more broadly The book questions how the streets and the racialized and marginalized urban communities who inhabit them are researched taught and subsequently politicized It looks at who gets to produce such knowledge who benefits from such knowledge and whose voices are privileged within dominant academic and public policy discourses Drawing on decolonizing methodologies the book seeks to give voice to scholars with lived experience of a street or gang life Adam Ellis Olga Marques and Anthony Gunter reclaim the terms thug and gang to reconstruct the narrative around street involved youth seeing them not as criminals but rather as survivors of historical oppression and trauma Challenging the colonial structure of criminology and other disciplines that focus on street crime Thug Criminology aims to disrupt and disentangle the knowledge that has been produced on gangs and urban violence

Bounding Greed René O. Guillaume, Edna Martinez, 2023-03-01 Building on the work of Guillaume 2021 the collection of autoethnographies and testimonios in this book highlight positive coping mechanisms strategies and healthy boundaries that early middle and late career Faculty of Color at comprehensive universities have deployed to negotiate home and work As beautifully stated by Aerial A Ashlee whose story you will find in chapter two It is not a formula a blueprint to copy or a recipe to repeat however we hope that the stories about relying on faith family mentors culture and community presented in the following chapters will support Faculty of Color in their own well being and work life integration efforts Certainly work life balance or integration is not the solution to deeply entrenched systemic issues in higher education however research in the area of work life balance integration has affirmed the need for postsecondary institutions to place significant importance on the topic of work life in particular the need for increased support at both the department and institutional levels Denson et al 2018 Thus it is also our hope that this book will serve as a resource for educational leaders in the area of faculty development as well as academic administrators whose role is to recruit retain and evaluate Faculty of Color at comprehensive universities

Dreamers Eileen Truax, 2015-03-10 This intimate first of its kind account of young undocumented immigrants fighting to live legally within the United States is a must read for anyone interested in the immigration debate Booklist Of the approximately twelve million undocumented immigrants living in the United States as many as two million came as children They grow up here going to elementary middle and high school and then the country they call home won't in most states offer financial aid for college and they're unable to be legally employed In 2001 US senator Dick Durbin introduced the DREAM Act to Congress an initiative that would allow these young people to become legal residents if they met certain requirements And now more than ten years later in the face of

congressional inertia and furious opposition from some the DREAM Act has yet to be passed But recently this young generation has begun organizing and with their rallying cry Undocumented Unapologetic and Unafraid they are the newest face of the human rights movement In Dreamers Eileen Truax illuminates the stories of these men and women who are living proof of a complex and sometimes hidden political reality that calls into question what it truly means to be American
