

Report: Community Health Needs Assessment

The Process:

Harney District Hospital (HDH) and representatives from the local community recently completed a Community Health Needs Assessment. This process was the collaborative effort of HDH and HEAL (Healthy Eating, Active Living) to address local issues regarding activity, nutrition and healthcare services. A diverse group of community members representing segments of the Harney County service area agreed to participate in this process as a Community Advisory Council (CAC) by attending three meetings, assisting with a survey process and providing input addressing local health needs. CAC meetings were conducted December 11th, January 15th and March 14th and were 1 to 1½ hours in length. Key to the assessment was a community survey regarding issues and attitudes about local activity, nutrition and healthcare opportunities. In addition, many community members not part of the council agreed to distribute and collect surveys for the assessment. The survey was available on-line as a link from HDH and Harney County Health Department websites, as well as a Facebook link. Over 600 surveys were completed. It is important to note this assessment dealt strictly with healthy eating, active living and general healthcare. It did not specifically include other health sectors like behavioral health or dental health.

Economic Impact:

An economic impact study was conducted to indicate the value of health care to the local economy. The health care industry generally pays above average wages and the health care sector is growing, continuing to generate income and jobs. In addition, business and industry want to locate in areas with high quality medical facilities, as do retirees. In 2012, HDH employed 167 full and part-time workers with wages and benefits of over \$8 Million. The employment multiplier of 1.35 as determined by ECONorthwest indicates for each job created at HDH, another .35 jobs are created elsewhere in the community to provide services/goods to HDH employees, bringing the total employment impact of HDH to 225 jobs.

Additionally, the 1.42 income multiplier indicates for each \$1 created in payroll + benefits at HDH, another .42 is created in elsewhere in the community as hospital employees spend. This brings the total income impact of HDH to over \$11.3 Million. Adding Family Care, formerly High Desert Medical Center, to HDH has made the hospital one of the largest employers in Harney County. The hospital provides a vital positive economic impact to Harney County.
