Who's Who in Fluorescence 2004 Chris D. Geddes, Joseph R. Lakowicz, 2012-12-06 The Who's Who in Fluorescence 2003 volume was published in November 2002 It featured some 312 personal entries from fluorescence workers all over the world Initially we were unsure how useful the volume would be However it wasn't very long before we were inundated with requests for both bulk and personal orders In addition a significant number of copies were freely distributed at conference venues such as at the Biophysical Society meeting in San Antonio Texas March 2003 and at the Methods and Applications of Fluorescence Spectroscopy conference MAFS in Prague Czech Republic August 2003 where these two venues probably host the largest gathering of Fluorescence workers anywhere Even when we were initially taking e-mail based submissions contributors were freely commenting on what a useful resource they saw the volume as being We subsequently shared these comments on the back outside cover of the 2003 volume As well as individual scientists supporting the 2003 volume the Fluorescence based Companies also played a key role where without their financial support the volume probably would not have the impact it currently has As such the Who's Who in Fluorescence 2003 has been a much bigger success than we ever envisaged Subsequently we now present the Who's Who in Fluorescence 2004 volume The new volume features 359 personal entries from 35 countries around the world In addition we have increased company support which should enable us to distribute more copies at targeted venues in 2004

Who's Who in Fluorescence 2008 Chris D. Geddes, 2008-07-10 The Who's Who in Fluorescence 2008 is the 6 Volume of the Who's Who Series The previous five volumes 2003 2007 have been very well received indeed with 1000's of copies being distributed around the world through conferences and workshops as well as through internet book sites Recently the WWiF Volume was disseminated at the 10 MAFS conference in Salzburg Austria The Volume was very well received indeed We subsequently thank Professor Otto Wolfbeis for help in disseminating the Volume at the MAFS venue This new 2008 Volume features some 418 entries from no fewer than 38 countries worldwide as compared to 405 entries 35 different countries in 2007 and 366 entries in the 2006 volume respectively We have received 31 new entries this year and deleted 18 entries that were not updated by contributors from past years In 2007 some 106 AIM

numbers were submitted and listed 88 the year before This year the number submitted has risen again to 129 entries greater than 30 % of all contributors In addition the Volume has a continued strong company support which will enable us to further disseminate the Volume in 2008 2009 In this regard we especially thank the instrumentation companies for their continued support where without their financial contributions it is likely that the Volume would not be the success it is today The new WWiF website was also launched in August 2007 The website features all the latest WWiF templates and submission information
