

# What document version control looks like

## **Balancing auto-save and manual strategies**

Employees should be able to retrieve important past drafts without storing too many versions in cloud environments.

## **Major and minor versioning**

This approach involves labeling documents as major (1.0, 2.0, etc.) and minor (2.1, 2.2, etc.) versions.

## **Controlled documents**

Content teams denote one official version for each document and maintain an archive of relevant drafts.

## **Add labels**

Employees can add relevant labels—including location and project status—to track document versions.

## **Purging old copies**

Content teams can get rid of old, irrelevant drafts that offer no business value.
