

## Structure of a Research Essay

All essays and research papers consist of three parts:

- an introduction
- body paragraphs
- conclusion.

### The Introduction:

- is the first paragraph of our essay
- it begins with a general statement about your topic
- provides background information for your reader
- concludes with the thesis (last sentence of the introduction)

### The Thesis

- is the last sentence of the paragraph
- one sentence only
- is a strong statement that you can prove
- is the answer to your research question
- is the controlling idea of the research and is a map to the route the research essay will follow
- is specific and expresses one major idea about the subject

### The Body

- is where the evidence to prove the thesis is presented
- is where the information supports or proves the thesis statement
- this supporting information can be analysis, argument, evaluation, persuasion and comparison/contrast
- the body of the paper is well organized with each paragraph consisting of a topic sentence, supporting and concluding sentences and a transition to the next paragraph
- **all support for your thesis, whether quoted or paraphrased, must be cited**

### Conclusion

- this is the last paragraph of the paper and summarizes how your paper proved the thesis
- restates thesis
- leave the reader with a last thought (the "hmmmm" factor)
- no new information is given in this paragraph.
