Applied Social Science Approaches to Mixed Methods Research Baran, Mette Lise, Jones, Janice Elisabeth, 2019-10-25 Research that has been presented primarily by quantitative research can benefit from the voice of the participants and the added value of the different perspective that qualitative research can provide The purpose of mixed methods research is to draw from the positive aspects of both research paradigms to better answer the research question This type of research is often used in schools businesses and non profit organizations as they strive to address and resolve questions that will impact their organizations Applied Social Science Approaches to Mixed Methods Research is an academic research publication that examines more traditional and common research methods and how they can be complimented through qualitative counterparts The content within this publication covers an array of topics such as entrepreneurship social media and marginalization It is essential for researchers academicians non profit professionals business professionals and higher education faculty and specifically targets master or doctoral students committed to writing their theses dissertations or scholarly articles who may not have had the benefit of working on a traditional research team Urban Renewal in Central Seoul Hyung Min Kim, 2024-07-05 Kim details a brief history of urban renewal in central Seoul through articulating urban planning paradigm shifts This book illustrates four main themes in central Seoul the restoration of the Cheonggye stream the redevelopment of the Sewoon Plaza the enhancement of walkability and public transport networks and history centred urban renewal Urban renewal is seen as a remedy for urban sprawl and is appreciated for its capacity to make use of pre existing infrastructure and cultural assets in high density urban areas However it faces critical challenges such as fragmented property ownership and escalated land prices in comparison with peri urban areas The book focuses on how planning policies have shaped the urban renewal process in central Seoul South Korea Spatial development policies for central Seoul have been changed from modern transport facilities post war reconstruction informality industrialisation to walkability sustainability and social cohesion in line with economic restructuring In recent times there has been a significant change in thinking towards creating public spaces for walking preserving historical sites and heritage and maintaining green spaces These interconnected topics contribute to understanding the complexity of urban renewal This book is a useful read for researchers on urban planning and policies who are keen to understand the complicated process of urban renewal and ways to revitalise economic and human activities and transform built environments *Analytics and Knowledge Management* Suliman Hawamdeh, Hsia-Ching Chang, 2018-08-06 The process of transforming data into actionable knowledge is a complex process that requires the use of powerful machines and advanced analytics technique Analytics and Knowledge Management examines the role of analytics in knowledge management and the integration of big data theories methods and techniques into an organizational knowledge management framework Its chapters written by researchers and professionals provide insight into theories models techniques and applications with case studies examining the use of analytics in organizations

The process of transforming data into actionable knowledge is a complex process that requires the use of powerful machines and advanced analytics techniques. Analytics on the other hand is the examination, interpretation and discovery of meaningful patterns, trends and knowledge from data and textual information. It provides the basis for knowledge discovery and completes the cycle in which knowledge management and knowledge utilization happen. Organizations should develop knowledge focuses on data quality, application domain, selecting analytics techniques and on how to take actions based on patterns and insights derived from analytics. Case studies in the book explore how to perform analytics on social networking and user based data to develop knowledge. One case explores analyze data from Twitter feeds. Another examines the analysis of data obtained through user feedback. One chapter introduces the definitions and processes of social media analytics from different perspectives as well as focuses on techniques and tools used for social media analytics. Data visualization has a critical role in the advancement of modern data analytics particularly in the field of business intelligence and analytics. It can guide managers in understanding market trends and customer purchasing patterns over time. The book illustrates various data visualization tools that can support answering different types of business questions to improve profits and customer relationships. This insightful reference concludes with a chapter on the critical issue of cybersecurity. It examines the process of collecting and organizing data as well as reviewing various tools for text analysis and data analytics and discusses dealing with collections of large datasets and a great deal of diverse data types from legacy system to social networks platforms.
