Niemi, Jane Junn, 2005-05-11 Sound democratic decisions rely on a citizenry with at least a partial mastery of the rules and workings of democratic government American high schools where students learn the basics of citizenship thus ought to play a critical role in the success of democracy Yet studies examining the impact of high school government and civics courses on political knowledge over the past quarter century have generally shown that these courses have little or no effect In this important book Richard G Niemi and Jane Junn take a fresh look at what America's high school seniors know about government and politics and how they learn it The authors argue convincingly that secondary school civics courses do indeed enhance students civic knowledge This book is based on the most extensive assessment to date of civic knowledge among American youth the 1988 National Assessment of Education Progress NAEP Civics Assessment The authors develop and test a theoretical model to explain the cognitive process by which students learn about politics and they conclude by suggesting specific changes in the style and emphasis of civics teaching **We the People**, 2016 **The Civic Textbook** Aleksandar Saša Zeković, 2005 Project Citizen We the People-- Project Citizen, Center for Civic Education (Calif.), National Conference of State Legislatures, 2010 *The Morality of Democratic Citizenship* Robert Freeman Butts, 1988 In recent years a number of political and educational leaders and groups have urged the nation's public schools to place a greater emphasis on teaching civic values and on educating students to become citizens This book puts forth the civic values and ideas that schools should be teaching The volume is not a handbook or curriculum guide but is designed to broaden the perspective of curriculum specialists textbook authors teachers and educational policymakers In the first three chapters of this four chapter book the study of and learning about history the study and learning about constitutional principles and the study and learning about conceptions of citizenship are examined The final chapter offers a set of 12 ideas and civic values that should suffuse teaching and learning in the schools These 12

values are justice equality authority participation truth patriotism freedom diversity privacy due process property and human rights DB Civic Education for Diverse Citizens in Global Times Beth C. Rubin,James M. Giarelli,2013-10-11 This book explores four interrelated themes rethinking civic education in light of the diversity of U S society re examining these notions in an increasingly interconnected global context re considering the ways that civic education is researched and practiced and taking stock of where we are currently through use of an historical understanding of civic education There is a gap between theory and practice in social studies education while social studies researchers call for teachers to nurture skills of analysis decision making and participatory citizenship students in social studies classrooms are often found participating in passive tasks e g quiz and test taking worksheet completion listening to lectures rather than engaging critically with the curriculum Civic Education for Diverse Citizens in Global Times directed at students researchers and practitioners of social studies education seeks to engage this divide by offering a collection of work that puts practice at the center of research and theory

Gooch,2015 With Civic Education in the Twenty First Century we call for the United States to make these practices less isolated and more common throughout the county The volume is broken into three major sections First there are four chapters exploring the history and philosophical debates about civic education particularly with respect to its role in America s educational institutions Then the second section provides seven groundbreaking inquiries into how politicians and political institutions can promote civic education and engagement through their routine operations As some examples this section explores how politicians through campaigns and judiciaries through community programs enhance civic knowledge and encourage civic engagement This section also explores how new technologies like the Internet and social media are increasingly used by government institutions and other entities to encourage a more politically informed and engaged

citizenry **Making Citizens** Beth C. Rubin, 2012 Making Citizens illustrates how social studies can recapture its civic purpose through an approach that incorporates meaningful civic learning into middle and high school classrooms

National Standards for Civics and Government Center for Civic Education (Calabasas, Calif.), 1994 **Civic Education & Culture** Bradley C. S. Watson, 2005 What do we teach our citizens This great Platonic question is as crucial today as it has ever been America and the West come to terms with this question in the context of their richly diverse technologically sophisticated fundamentally individualistic societies Virtually all would agree that such diversity sophistication and freedom are positive political and cultural goods but many would also argue that they militate against the coherence that all regimes and civilizations must in some way demand The nature extent and coherence of civic education are perhaps the greatest determinants of a regime's politics and culture and the regime can in turn do much to foster the right kind of civic education This book presents the insights of renowned scholars and writers including Stephen H Balch Timothy Fuller and Roger Kimball who have thought broadly and deeply about the role that education at all levels plays in promoting maintaining or undermining our politics culture and society
