Stewart, Richard M. Wyskida, James D. Johannes, 1995-04-03 In today's hypercompetitive global marketplace accurate cost estimating is crucial to bottom line results. Nowhere is this more evident than in the design and development of new products and services. Among managing engineers responsible for developing realistic cost estimates for new product designs, the number one source of information and guidance has been the *Cost Estimator's Reference Manual*. Comprehensive, authoritative, and practical, the Manual instructs readers in the full range of cost estimating techniques and procedures currently used in the fields of development, testing, manufacturing, production, construction, software, general services, government contracting, engineering services, scientific projects, and proposal preparation. The authors clearly explain how to go about gathering the data essential to preparing a realistic estimate of costs and guide the reader step by step through each procedure. This new Second Edition incorporates a decade of progress in the methods, procedures, and strategies of cost estimating. All the material has been updated, and five new chapters have been added to reflect the most recent information on such increasingly important topics as activity-based costing, software estimating, design to cost, techniques and cost implications of new concurrent engineering, and systems engineering approaches to projects. Indispensable to virtually anyone whose work requires accurate cost estimates, the *Cost Estimator's Reference Manual* will be especially valuable to engineers, estimators, accountants, and contractors of products, projects, processes, and services to both government and industry. The essential ready reference for the techniques, methods, and procedures of cost estimating. **COST ESTIMATOR'S REFERENCE MANUAL** Second Edition Indispensable for anyone who depends on accurate cost estimates for engineering projects, the *Cost Estimator's Reference Manual* guides the user through both the basic and more sophisticated aspects of the estimating process.
