

# Civil War Scavenger Hunt Activity

## Materials:

- 18 Civil War fact cards (pages 2–6)
- Civil War questions worksheet (pages 7–8)
- scissors
- scotch tape

## Preparation

Print the fact cards and cut them apart.

Make copies of the Civil War questions worksheet (2-sided). Each student will need his or her own copy.

Hide all 18 Civil War fact cards around your classroom where students will be able to find them. You can put them on the back of your classroom door, on chairs, on the computer keyboard, on the sides of student desks, or wherever you like.

## Activity

Students receive copies of the question worksheet. They have to search the classroom to find the fact cards to answer the questions.

After they have completed the question sheet, you can go over the answers together with the class.

## Management tips

You may want to make this a silent activity so students don't share answers with each other. You can have the kids work by themselves or with partners.

Don't be afraid to hide the facts in tough places. Kids think it's more fun when they have to search around a little.

## Examples of good hiding spots might include:

- sticking out of a book, like a bookmark
- the back of the classroom door
- lying flat on the classroom bookshelf
- on the side of the bookshelf
- on the back of the teacher's chair

Have a plan for students who finish early. You may want to have an assignment for them to complete when they're done, or you may have them help other students find fact cards.

White, 2021-07-22 A collection of essays that examine how the history of slavery and race in the United States has been interpreted and inserted at public historic sites For decades racism and social inequity have stayed at the center of the national conversation in the United States sustaining the debate around public historic places and monuments and what they represent These conversations are a reminder of the crucial role that public history professionals play in engaging public audiences on subjects of race and slavery This difficult history has often remained un or underexplored in our public discourse hidden from view by the tourism industry or even by public history professionals themselves as they created historic sites museums and public squares based on white centric interpretations of history and heritage Challenging History through a collection of essays by a diverse group of scholars and practitioners examines how difficult histories specifically those of slavery and race in the United States are being interpreted and inserted

at public history sites and in public history work Several essays explore the successes and challenges of recent projects while others discuss gaps that public historians can fill at sites where Black history took place but is absent in the interpretation Through case studies the contributors reveal the entrenched false narratives that public history workers are countering in established public history spaces and the work they are conducting to reorient our collective understanding of the past History practitioners help the public better understand the world Their choices help to shape ideas about heritage and historical remembrances and can reform even transform worldviews through more inclusive and ethically narrated histories Challenging History invites public historians to consider the ethical implications of the narratives they choose to share and makes the case that an inclusive honest and complete portrayal of the past has the potential to reshape collective memory and ideas about the meaning of American history and citizenship
