balanced work in which the political economic social religious intellectual cultural and military aspects of Western civilization would be integrated into a chronologically ordered synthesis Second I wanted to avoid the approach that is quite common in other brief histories of Western civilization an approach that makes them collections of facts with little continuity from section to section Instead I sought to keep the story in history Narrative history effectively transmits the knowledge of the past and is the form that best enables students to remember and understand the past At the same time I have not overlooked the need for the kind of historical analysis that makes students aware that historians often disagree in their interpretations of the past
