drawings and plans of the Beehive houses and the Council of the Society of Antiquaries of Scotland for the use of a considerable number of woodcuts Of the new woodcuts which are numerous some are notably inferior to others Those which are faulty are made from poor sketches taken from the objects by myself I chose rather to let their defects remain than to have them removed by the imagination of a draughtsman It would have been an advantage if all the neo archaic objects had been drawn to scale but this advantage I could not practically obtain I have endeavoured to supply the defect by giving as often as I could such measurements and weights as would show their size and character About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
