### **Refugees and Migrants in Law and Policy**

Helmuth Kury,Ślawomir Redo,2018-05-31 Refugees and migration are not a new story in the history of humankind but in the last few years against a backdrop of huge numbers of migrants especially from war torn countries they have again been a topic of intensive and contentious discussion in politics the media and scientific publications Two United Nations framework declarations on the sustainable development goals and on refugees and migrants adopted in 2016 have prompted the editors who have a background in international criminology to invite 60 contributors from different countries to contribute their expertise on civic education aspects of the refugee and migrant crisis in the Global North and South Comprising 35 articles this book presents an overview of the interdisciplinary issues involved in irregular migration around the world It is intended for educationists educators diplomats those working in mass media decision makers criminologists and other specialists faced with questions involving refugees and migrants as well as those interested in improving the prospects of orderly safe regular and responsible migration in the context of promoting peaceful and inclusive societies for sustainable development Rather than a timeline for migration policies based on now with states focusing on stopping migration now sending back migrants now or bringing in technicians or low skilled migrant workers now there should be a long term strategy for multicultural integration and economic assimilation This book prefaced by Fran ois Cr peau the United Nations Special Rapporteur on the human rights of migrants and William Lacy Swing Director General of the International Organization for Migration addresses the question of the rights and responsibilities involved in migration from the academic and practical perspectives of experts in the field of social sciences and welfare and charts the way forward to 2030 and beyond and also beyond the paradigm of political correctness      Bound for Cj RUTH E. **CJ** ,2010      *Agrekon* ,2005      *Law, Violence and Constituent Power* Héctor López Bofill,2021-05-30 This book challenges traditional theories of constitution making to advance an alternative view of constitutions as being founded on

power which rests on violence The work argues that rather than the idea of a constitution being the result of political participation and deliberation all power instead is based on violence Hence the creation of a constitution is actually an act of coercion where through violence one social group is able to impose itself over others The book advocates that the presence of violence be used as an assessment of whether genuine constitutional transformation has taken place and that the legitimacy of a constitutional order should be dependent upon the absence of killing The book will be essential reading for academics and researchers working in the areas of constitutional law and politics legal and political theory and constitutional history
