Write. Edit. Promote Samarпита Sharma,2019-08-10 I am not exaggerating when I say I get at least 8-9 messages over all social media platforms every single month asking me how to write I love to write but I don't know how to begin doing it formally Can you give me tips on writing Who will read me when nobody knows me Is publishing a book very traumatising a process Why don't you take online classes teaching how to write These are just a few of the questions people ask me and while I really want to help them I am never sure where do I begin from Writing is such a vast activity on its whole and I

believe no one can really be taught how to write But all of us can learn to write better In this book I wanted to address questions about writing editing hiring an editor and even how to promote a book without spending a bomb Many people remain confused and unaware of how none of this is too difficult if done the correct way If you look hard and carefully you might spot some errors in this book I have not edited this book in the manner I run a fine tooth comb through manuscripts of my clients The reason for this is that I want to stress on an important point I keep telling all authors The writer of the piece looks at it from the writer s eyes The editor s eyes can spot things a writer s eye might not Of this book I am only the author I hope this book helps you I know publishing is not a smooth experience I cannot help you get published but I hope I can help you with a few other things that come up in the process I d love to know what you think Do mail me I have mentioned my email id at the beginning of the book
