market based measures and carrot and stick incentives informing today's reforms are out of sync with the nurturing culture that good schools foster and contrary to popular belief at odds with the best practices of thriving twenty first century companies as well. These rich detailed stories of real reform in action illustrate how enduring change must be deeply collaborative and relentlessly focused on improvement from the grass roots up. Lessons also learned from both the open source software and quality movements. The good news is that solutions born of this philosophy are all around us from Brockton Massachusetts where the state's once failing largest high school now sends most graduates to college to Leander Texas a large district where school improvement spurred by the ideas of quality guru W Edwards Deming has become a way of life. A welcome exception to the doom and gloom canon of education reform. After the Education Wars makes clear that what's needed is not more grand ideas but practical and informed ways to grow the best ones that are already transforming schools.

Summer versus School II James Pedersen, David Hornak, Jon Mishra, 2024-10-02 Summer Versus School II The Balanced Calendar of School Work and Life 2nd Edition explores the successes and challenges of moving from the traditional 10 month calendar to implement ones that are more in line with the needs of modern families. Through real case studies from actual school districts in the state of Washington this book examines research into instructional practices programmatic challenges and community involvement with schools that have adapted modified calendars.
