(Social and Political Life)(Chapter - 2) (Understanding Secularism)

(Class - 8)

Question 4:

Look up the annual calendar of holidays of your school. How many of them pertain to different religions? What does this indicate?

Answer 4:

Many holidays on a school's annual calendar pertain to different religions. This indicates that India is a secular country where religious freedom is granted to its citizens and all religions are equally respected.

Question 5:

Find out some examples of different views within the same religion.

Answer 5:

Many religions are further segregated into groups and communities that hold differing ideological opinions. One of these is the rift between the Shias and Sunnis - both followers of Islam. The division between Shias and Sunnis dates back to the death of the Prophet Muhammad and to the question of who was to take over the leadership after the Prophet. Sunni Muslims agree with the position taken by many of the Prophet's companions, that the new leader should be elected from among those capable for the job. This is what was done, and the Prophet Muhammad's close friend and advisor, Abu Bakr, became the first Caliph of the Islamic nation. The word "Sunni" in Arabic comes from a word meaning "one who follows the traditions of the Prophet."

On the other hand, some Muslims share the belief that leadership should have stayed within the Prophet's own family, among those specifically appointed by him, or among Imams appointed by God Himself.

The Shia Muslims believe that following the Prophet Muhammad's death, leadership should have passed directly to his cousin/son-in-law, Ali. Throughout history, Shia Muslims have not recognized the authority of elected Muslim leaders, choosing instead to follow a line of Imams which they believe have been appointed by the Prophet Muhammad or God Himself. The word "Shia" in Arabic means a group or supportive party of people. The commonly-known term is shortened from the historical "Shia-t-Ali," or "the Party of Ali." They are also known as followers of "Ahl-al-Bayt" or "People of the Household" (of the Prophet).

Question 6:

The Indian State both keeps away from religion as well as intervenes in religion. This idea can be quite confusing. Discuss this once again in class using examples from the chapter as well as those that you might have come up with.

Answer 6:

The Indian State keeps away from religion as well as intervenes in religion. This idea is quite confusing. It allows Sikh citizens to wear turbans and thereby be exempt from the use of helmets but it also disallows government schools from celebrating any particular religious festival. Annual holidays are given with regard to all religions and not any specific ones.

Question 7:

This poster alongside highlights the need for 'Peace'. It says, "Peace is a never-ending process....It cannot ignore our differences or overlook our common interests." Write in your own words what you think the above sentences are trying to convey? How does it relate to the need for religious tolerance?

Digital Solutions for Contemporary Democracy and Government Bwalya, Kelvin Joseph, Mutula, Stephen, 2015-04-30 The dot com revolution has brought many advances before unimagined. Of them all it may be said that none have surpassed e government in attracting a significant number of researchers and practitioners from around the world. However the question remains whether everyone is ready to join the e government movement or if some are just blindly following the latest trend. *Digital Solutions for Contemporary Democracy and Government* touches on several key issues and challenges surrounding the recent e government boom and offers practical solutions from those who have been a part of implementing e government programs internationally. Due to its breadth of discussion on a variety of topics relating to the intersection of technology with politics, democracy and government, this authoritative book is a valuable reference source for professionals, researchers and students in the field of e government, information management or knowledge management.

The ^AEvolving Sphere of Food Security Rosamond L. Naylor, 2014-08-18 A multidisciplinary group of scholars present the many faces and facets of global food insecurity, their symptoms, roots and possible remedies through personal stories of research and policy advising at local and global scales. The authors explore the interconnectedness of food security and energy, water, climate, health and national security as well as its policy implications.

Policy Signals and Market Responses Stuart John Barton, 2016-01-26 The study presents archival evidence to show how President Kaunda raised political and economic exclusivity in Zambia in the early years of Zambia's independence and how this retarded capital investment. Despite formal reforms and a new government, this institutional mechanism still dominates and constrains Zambia's political economy today.

Official Verbatim Report of the Parliamentary Debates Zambia. National Assembly, 2012-07-19 Consolidated guidance on tuberculosis data generation and use. Module 3. National tuberculosis prevalence surveys World Health Organization, 2025-07-10 National TB prevalence surveys are a key tool used by WHO to estimate the burden of TB disease in a country. Repeat surveys allow for the assessment of trends and of the impact of interventions to reduce the burden of disease, thus helping to track progress towards the milestones and targets for reductions in TB incidence set in the WHO End TB Strategy. Between 2007 and 2024, a total of 36 surveys in 32 countries were implemented using the screening and diagnostic methods recommended by WHO. These surveys were guided by two WHO publications, first in 2007 and then in 2011. Since then, major technological developments have occurred and important lessons have been learned from surveys implemented. This new edition is intended to support the design, implementation, analysis and reporting of national TB prevalence surveys in the period up to about 2030. It includes major revisions to the diagnostic algorithms that are recommended for use in national TB prevalence surveys and, in turn, the case definitions used to count the number of survey participants who have TB disease, updated guidance on sampling design and the analysis and reporting of data based on the new diagnostic algorithms and case definitions, updated and considerably expanded guidance
