The Performative State Iza Yue Ding, 2022-09-15 What does the state do when public expectations exceed its governing capacity The Performative State shows how the state can shape public perceptions and defuse crises through the theatrical deployment of language symbols and gestures of good governance performative governance Iza Ding unpacks the black box of street level bureaucracy in China through ethnographic participation in depth

interviews and public opinion surveys She demonstrates in vivid detail how China's environmental bureaucrats deal with intense public scrutiny over pollution when they lack the authority to actually improve the physical environment They assuage public outrage by appearing responsive benevolent and humble But performative governance is hard work Environmental bureaucrats paradoxically work themselves to exhaustion even when they cannot effectively implement environmental policies Instead of achieving performance legitimacy by delivering material improvements the state can shape public opinion through the theatrical performance of goodwill and sincere effort The Performative State also explains when performative governance fails at impressing its audience and when governance becomes less performative and more substantive Ding focuses on Chinese evidence but her theory travels comparisons with Vietnam and the United States show that all states democratic and authoritarian alike engage in performative governance ... *Annual Report India*. Rajya Sabha, 2014-07 Public Sector Shock Daniel Vaughan-Whitehead, 2013 After a first series of policy responses to the 2008-09 crisis aimed at sustaining domestic demand through expansionary anti crisis packages most European governments starting with Greece Ireland Bulgaria and Romania and followed by many others have since put in place a series of restrictive budgetary policies aimed at reducing their budget deficits With these new policies a significant number of jobs and wages have been cut in the public sector A number of expenditure items related to education and training have also been cut These reforms have given rise to waves of protest throughout Europe The goal of this volume is to study this public sector shock While budgetary reforms seek to ensure a more balanced and sound economic policy they may generate new work inequalities among public sector employees most particularly among women who account for a considerable proportion of public sector employment Cuts in education and training may also have an impact on the quality of human capital in both the public and private sectors despite the fact that the recent crisis has shown the value of education as employees with better skills and training are more likely to maintain their jobs and incomes The authors explore a number of questions including what types of reform have been implemented in the public sector and what are their implications in both the short and long term On the economic side what will be the impact on wages and on job quantity and quality On the social side what will the effects be on inequality and social cohesion And what will be the outcome for and potential role of social partners and social dialogue On the basis of a comparative and comprehensive assessment illustrated by case studies in education health and public administration policy issues are discussed with the aim of finding the right mix of public sector reforms Contributors S Altwicker H Mori J I Ant n D Anxo G Bosch K Espenberg V Franicevic J Gauti D Grimshaw J K ll J Masso T Matkovic Y Monogios R Mu oz de Bustillo P O Connell H Rato J Rubery W Salverda Z Tzannatos V Vasile D Vaughan Whitehead **Geology** Edward C.
