Chrisler, Donald R. McCreary, 2010-03-12 Donald R McCreary and Joan C Chrisler The Development of Gender Studies in Psychology Studies of sex differences are as old as the eld of psychology and they have been conducted in every sub eld of the discipline There are probably many reasons for the popularity of these studies but three reasons seem to be most prominent First social psychological studies of person perception show that sex is especially salient in social groups It is the rst thing people notice about others and it is one of the things we remember best Fiske Haslam Stangor Lynch Duan Glass 1992 For example people may not remember who uttered a witty remark but they are likely to remember whether the quip came from a woman or a man Second many people hold rm beliefs that aspects of physiology suit men and women for particular social roles Men's greater upper body strength makes them better candidates for manual labor and their greater height gives the impression that they would make good leaders i e people we look up to Women's reproductive capacity and the caretaking tasks e g breastfeeding baby minding that accompany it make them seem suitable for other roles that require gentleness and nurturance Third the logic that underlies hypothesis testing in the sciences is focused on difference Researchers design their studies with the hope that they can reject the null hypothesis that experimental groups do not differ

**Directions** ,1980      *10th International Symposium on Society and Resource Management* ,2004      **Leadership and the Ethics of Influence** Terry L. Price, 2020-03-02 How do leaders influence others Although they sometimes appeal directly to good reasons which we associate with rational persuasion leaders also use guilt pressure flattery bullying and rewards and punishment all to get the behaviors that they want Even when leaders refrain from outright lying they are nevertheless known to practice something approaching perhaps reaching the level of manipulation Influence therefore presents a serious ethical problem across leadership contexts Leadership and the Ethics of Influence argues that influence puts leaders at risk of using people It is generally disrespectful of autonomy to figure out what makes people tick in an effort to handle them In contrast with physical force influence works through agency not around it Despite this feature of influence and to a large extent because of it the everyday influence associated with leadership is often morally troublesome What matters morally is not only whether agency is bypassed or overridden but also who is ultimately in control This book uses philosophy and leadership studies to show how leaders across different contexts can be justified in getting followers to do things Connecting moral theory to leadership theory and especially to charismatic leadership authentic leadership transforming leadership and ethical leadership this book is essential reading for leadership scholars students and practitioners      **Book Review Digest** ,1997      **FID News Bulletin** International Federation for Documentation.
