History for the IB Diploma: The Cold War Allan Todd, 2011-05-19 An exciting new series that covers the five Paper 2 topics of the IB 20th

Century World History syllabus This stimulating coursebook covers Paper 2 Topic 5 The Cold War in the 20th Century World History syllabus for the IB History programme The book is divided into thematic sections following the IB syllabus structure and is written in clear accessible English It covers the following areas for detailed study Wartime conferences Yalta and Potsdam US policies and developments in Europe Truman Doctrine Marshall Plan NATO Soviet policies Sovietisation of Eastern and Central Europe COMECON Warsaw Pact Sino Soviet relations US Chinese relations Germany and Castro Gorbachev Kennedy Mao Reagan Stalin Truman *The Dissolution of Yugoslavia and the Badinter Arbitration Commission* Steve Terrett, 2017-11-22 This title was first published in 2000 Yugoslavia's dissolution at a time when rhetoric of the New World Order was firmly established in legal and political discourse Nevertheless the largely positive appraisal of international law's response to the Iraq Kuwait conflict has not been mirrored in relation to Yugoslavia This book evaluates the peace making efforts of the major institutional actors whilst focusing specifically on the Badinter Arbitration Commission an ad hoc EC created organ required to provide legal advice on the issues surrounding Yugoslavia's dissolution Initially composed of constitutional lawyers aiming to redraft Yugoslavia's constitution the Commission soon faced problems of public international law Its jurisprudence challenges international lawyers to reassess their state centric conceptions of international law in a world where most conflicts war crimes and human rights abuses exist within rather than between States This book is vital reading for anyone interested in international law international relations politics and central eastern European studies

Post-Conflict Referendums and Peace Processes Kentaro Fujikawa, 2024-12-10 This book provides a comparative study of the impact of referendums on conflict resolution and peacebuilding in post conflict societies Post conflict referendums have increasingly been held as part of peace processes While policy makers are hopeful that these referendums serve peace and democracy the burgeoning literature on them has expressed significant reservations about their use particularly on territorial issues because referendums do not have mechanisms for compromise To gauge the actual impact of these referendums on peace processes the book systematically compares three post conflict referendums on self determination held with their respective central governments consent in Eritrea East Timor and Southern Sudan Relying on more than 70 elite interviews it examines 1 the rationales behind the decision to hold referendums 2 the referendums impact on resolving the original self determination conflicts and 3 their impact on post conflict peacebuilding inside the newly independent states The three case studies reveal various rationales behind such referendums and show that referendums play a limited albeit positive role in settling the original conflicts Furthermore holding referendums after civil wars has various positive negative and often unexpected impacts on domestic and international peacebuilding efforts inside newly independent states This book provides careful thorough and well balanced accounts of these referendums impact on peace processes This book will be of much interest to students of peace and conflict studies African and South East Asian politics and International Relations Chapter 1 of this book is freely available as a downloadable Open Access PDF at <http://www>

Coping with Conflict After the Cold War Edward A. Kolodziej, Roger E. Kanet, 1996 This volume provides answers to the question of how the international community might cope with armed conflict after the Cold War. It identifies key actors, states and international organizations that have the resources and potentially the will to address the problems of continuing violence and enduring conflicts. The book also evaluates the roles and strategies that might be adopted by these actors unilaterally or cooperatively to ease or end such armed struggles. The authors review the role of the United States, Russia, Japan and China, all of which have the potential to play constructive roles in resolving conflicts. They also explore the contributions that the United Nations, the European Community and other transnational organizations can make to building a more peaceful and secure world. Instead of appealing to grand theory as a guide for coping, the authors conclude that different mixes of actors, resources, roles and strategies will have to be fashioned to meet the special needs of each conflict. Coping is viewed as an international imperative and not as the responsibility or prerogative of any one actor. The volume will be of interest to anyone concerned with international relations, international organizations and security issues. Contributors are Arthur J. Alexander, Mohammed Ayoob, Nicole Ball, Paul F. Diehl, Roger E. Kanet, Samuel S. Kim, Edward A. Kolodziej, Edward J. Laurence, David F. Linowes, Patrick M. Morgan, Jack Snyder, Janice Gross Stein and I. William Zartman.

The NGO Game Patrice C. McMahon, 2017-06-13 In most post conflict countries, nongovernmental organizations are everywhere but their presence is misunderstood. In *The NGO Game*, Patrice McMahon investigates the unintended outcomes of what she calls the NGO boom in Bosnia and Kosovo. Using her years of fieldwork and interviews, McMahon argues that when international actors try to rebuild and reconstruct post conflict countries, they often rely on and look to NGOs. Although policymakers and scholars tend to accept and even celebrate NGO involvement in post conflict and transitioning countries, they rarely examine why NGOs have become so popular, what NGOs do or how they affect everyday life. After a conflict, international NGOs descend on a country, local NGOs pop up everywhere and money and energy flow into strengthening the organizations. In time, the frenzy of activity slows, the internationals go home, local groups disappear from sight and the NGO boom goes bust. Instead of peace and stability, the embrace of NGOs and the enthusiasm for international peacebuilding turns to disappointment if not cynicism. For many in the Balkans and other post conflict environments, NGOs are not an aid to building a lasting peace but are part of the problem because of the turmoil they foster during their life cycles in a given country. *The NGO Game* will be useful to practitioners and policymakers interested in improving peacebuilding, the role of NGOs in peace and development and the sustainability of local initiatives in post conflict countries.

Cinematic Cold War Tony Shaw, Denise Jeanne Youngblood, 2010 The first book-length survey of cinema's vital role in the Cold War cultural combat between the U.S. and the USSR. Focuses on 10 films, five American and five Soviet, both iconic and lesser known works, showing that cinema provided a crucial outlet for the global debate between democratic and communist ideologies.

Conflict and Cooperation Marc A. Genest, 2004 Designed to acquaint students with the fundamental principles of and treatises on international relations theory CONFLICT AND COOPERATION combines a broad range of historical and contemporary readings that provide a thorough balanced view of International Relations theory This text could be used alone or as a complement to a standard International Relations text **The Making of the Second Cold War** Fred Halliday, 1983

The Geopolitics of Power and Conflict Jan Nijman, 1993-11-14 Reassesses the history and operation of post war global politics presenting a new and satisfying explanation of how international relations and strategy work Contains a theoretical perspective on superpowers in the international system an original researched investigation of how superpower relations ended during the Cold War and explores current geopolitical change along with the future and adjustment of the U S to the new world order **Presidential Lightning Rods** Richard J. Ellis, 1994 Choice Outstanding Title H R Haldeman President Nixon s former chief of staff is said to have boasted Every president needs a son of a bitch and I m Nixon s I m his buffer and I m his bastard I get done what he wants done and I take the heat instead of him Richard Ellis explores the widely discussed but poorly understood phenomenon of presidential lightning rods cabinet officials who take the heat instead of their bosses Whether by intent or circumstance these officials divert criticism and blame away from their presidents The phenomenon is so common that it s assumed to be an essential item in every president s managerial toolbox But Ellis argues such assumptions can oversimplify our understanding of this tool Ellis advises against indiscriminate use of the lightning rod metaphor Such labeling can hide as much as it reveals about presidential administration and policymaking at the cabinet level The metaphor often misleads by suggesting strategic intent on the president s part while obscuring the calculations and objectives of presidential adversaries and the lightning rods themselves Ellis also illuminates the opportunities and difficulties that various presidential posts especially secretaries of state chiefs of staff and vice presidents have offered for deflecting blame from our presidents His study offers numerous detailed and instructive examples from the administrations of Truman Dean Acheson Eisenhower Richard Nixon John Foster Dulles Herbert Brownell and Ezra Taft Benson LBJ Hubert Humphrey Ford Henry Kissinger and Reagan James Watt These examples Ellis suggests should guide our understanding of the relationship between lightning rods and presidential leadership policymaking and ratings Blame avoidance he warns does have its limitations and may even backfire at times Nevertheless President Clinton and his successors may need to rely on such tools The presidency Ellis points out finds itself the object of increasingly intense partisan debate and microscopic scrutiny by a wary press Lightning rods can deflect such heat and help the president test policies gauge public opinion and protect his political power and public image Ellis s book is an essential primer for helping us understand this process

Conflict & Diplomacy from the Great War to the Cold War Donald E. Shepardson, 1999 The prospect of Allied victory helped to bring the disintegration of the grand alliance and a return to the Soviet Western rivalry which existed prior to World War II The final part of the book deals with the defeat of Japan and the controversy surrounding the atomic bomb

BOOK JACKET **Choice** ,2006-03 **Legitimizing Policy Shifts** Laura Roselle Helvey,1993 Examination Regulations University of Oxford,2007 From Fragile State to Functioning State Sabine Collmer,2009 The phenomenon of state fragility has become a mounting concern to the international community in the last decades This edited volume consists of a compilation of articles that evaluates how countries may recover and return to a path of stable and democratic development In its 17 chapters the contributors analyze the difficult transformation processes of four countries Afghanistan Georgia Kosovo and Moldova The authors tackle theoretical approaches to state reform as well as country specific issues like the role of external actors security sector reform and anti corruption strategies **The War Economy in the Democratic Republic of Congo** Sagaren Naidoo,2003 Irreconcilable Differences? Thomas C. Caramagno,2002-08-30 In recent year pro gay and anti gay rights activists have engaged in a struggle to sway public opinion in their favor through the use of ideologically charged rhetoric in an effort to win support from an undecided public The author contends however that the debate is stalemated precisely because each side stereotypes and pathologizes the other s perspective thereby becoming perfect enemies divided on every issue and with such intensity that consensus seems nearly impossible Providing a panoramic view of both perspectives this unique book traces the contested issues to fundamental conceptual differences within the field of religious scientific and political studies Caramagno carefully examines the centuries of thought behind the questions involved and encourages readers to consider the arguments in order to draw their own conclusions This book is not about the wrongs or rights of the gay rights debate Nor is it a condemnation of the sides involved in the debate Instead it shows how the two sides have engaged in the battle and how they have marshaled evidence from a variety of sources often the same ones to muster public support but without addressing the conceptual changes needed to conduct a more profitable dialog Treating both sides of the debate respectfully and objectively Irreconcilable Differences opens the discussion up so that all ideas and arguments can be understood as having something valuable to bring to the table In this way readers are challenged to consider the ways arguments are formed how culture disseminates ideas and how a debate can be shaped so that consensus building is a real not an imagined outcome
