Krav Maga Advanced Techniques Sergio Nisenbaum, 2021-07-26. Volume 2 follows the same creative line and reasoning of Volume 1. It is a practical guide that contains advanced techniques, details, and explanations of self defense in different situations of aggression. Fully illustrated and with descriptive texts showing every defense step by step, the book translates in a simple and objective way the complexity of each movement. The two books complete each other and compose a significant source of reference of the Krav Maga technique. For the practitioners of the art, it is an excellent didactic material of support and study for a better practice. It is also indicated to everyone who is willing to learn the Israeli self defense art. Creating Volume 1 was a significant challenge for me. I used to think that I had reached my limit. However, soon after it was launched, like in the practice of Krav Maga, where at each graduation I would try to climb higher and higher, the willingness to face the challenge of moving ahead with a new book came up. Thus, I found strength, inspiration, and determination to create and launch this book. Sergio Nisenbaum
