facility management and consultants at government ministries departments and agencies MDAs charged with maintenance management of public infrastructures and assets

An Integrated Infrastructure Delivery Model for Developing Economies Rembuluwani Netshiswinzhe, Clinton Aigbavboa, Wellington Didibhuku Thwala, 2023-08-29 This book explores the attributes of an integrated model for infrastructure delivery as a means to achieve high impact investing sustainable growth and development in a developing economy An Integrated Infrastructure Delivery Model for Developing Economies Planning and Delivery Management Attributes is premised on the understanding that one of the most significant barriers to efficient and effective infrastructure delivery is the nature and extent of fragmentation in the ways in which infrastructure projects are planned designed and delivered Using a Delphi method the research presented in this book examines the infrastructure delivery models and practices that have been employed in South Africa and other developing countries and in doing so presents eight attributes for integrated infrastructure delivery These are i developing a common vision for the community ii stakeholder participation iii integrated project development and scoping iv access to planning information v cross sectoral planning vi integrated infrastructure master plans vii statutory and regulatory compliance and viii integrated contractual frameworks The book presents a practical model that can serve as a guide and a manual for project planning and development to achieve integrated infrastructure delivery in developing economies The proposed model should serve as a framework to inform future planning and programming of infrastructure projects within the public sector space Furthermore the application of the model will help resolve the problems of fragmentation and lack of coordination in how infrastructure projects are planned and implemented This book will be beneficial to infrastructure practitioners policymakers researchers and academics who pursue best practice models to improve the delivery and management of infrastructure

The Road to Results Linda G. Morra-Imas, Linda G. Morra, Ray C. Rist, 2009 The Road to Results Designing and Conducting Effective Development Evaluations presents concepts and procedures for evaluation in a development context It provides procedures and examples on how to set up a monitoring and evaluation system how to conduct participatory evaluations and do social mapping and how to construct a rigorous quasi experimental design to answer an impact question The text begins with the context of development evaluation and how it arrived where it is today It then discusses current issues driving development evaluation such as the Millennium Development Goals and the move from simple project evaluations to the broader understandings of complex evaluations The topics of implementing Results based Measurement and Evaluation and constructing a Theory of Change are emphasized throughout the text Next the authors take the reader down the road to results presenting procedures for evaluating projects programs and policies by using a Design Matrix to help map the process This road includes determining the overall approach formulating questions selecting designs developing data collection instruments choosing a sampling strategy and planning data analysis for qualitative quantitative and mixed method evaluations The book also includes discussions on conducting complex evaluations how to manage evaluations how to present

results and ethical behavior including principles standards and guidelines The final chapter discusses the future of development evaluation This comprehensive text is an essential tool for those involved in development evaluation **A 21st Century Employability Skills Improvement Framework for the Construction Industry** John Aliu,Clinton Aigbavboa,Wellington Thwala,2021-04-30 This book will provide readers with an understanding of the employability concept and develop an employability skills improvement model to enhance the employability of built environment graduates to foster economic development The developed model determines the influence of generic skills discipline specific skills work integrated learning emotional intelligence university industry collaboration outcomes and 4IR knowledge in predicting the outcomes of improved graduate employability The model is developed with a theoretical lens on existing frameworks of employability and skills development Whilst drawing comparisons with countries such as the UK USA Australia and Canada the authors present the results of a two stage Delphi survey in South Africa as a case study on the current state of skills development and on the skills of the future The case study is presented in line with the South Africa s long term National Development Plan NDP aimed at developing the key capabilities and skills of its citizens by ensuring quality education on a broader scale by 2030 As automation continues to rapidly advance the pressures on universities to revamp and restructure their curricula have become increasingly necessary This book recommends that higher education institutions urgently need to intensify their efforts by introducing significant modifications to the science and technology curriculum to enable students to develop and acquire competencies in the rapidly emerging areas of artificial intelligence data science robotics advanced simulation data communication system automation real time inventory operations cloud computing and information technologies This implies that universities curriculum should be infused with 4IR thinking within the conventional primary sciences of biology chemistry and physics with greater emphasis on digital literacy to boost 4IR understanding amongst the graduates The book is therefore of interest to researchers and policy makers in the built environment that are placed in academia the construction industry or at consultancy levels it provides significant recommendations for universities as they intensify their efforts to develop graduates for the future **The Official Railway Guide** ,1875 **Evidence Based Dermatology** Howard I. Maibach,2011 Evidence based thinking in clinical medicine has impacted greatly on the physician s approach to clinical care Evidence Based Dermatology introduces and encourages the concept of evidence based patient care in dermatology Incorporating a text that is much more than merely the summary of trial data the authors worked to explore disease mechanisms and treatments in greater depth and detail in order to provide more insight for the reader In addition to promoting the understanding of the evidence based philosophy the authors have focused on some of the fundamentals in dermatology that need to be approached differently Issues such as the interpretation of clinical research disease oriented evidence versus patient care evidence and the use of placebo are examined **The Official Guide of the Railways and Steam Navigation Lines of the United States, Porto Rico, Canada, Mexico and Cuba** ,1882 **Borland Delphi 6**
