

Drawing Guides

For perfectly straight horizontal and vertical lines, you can use a Drawing Guide and the Drawing Assist function. This will align every brush stroke to a grid, which can be especially useful when using the **BINDING** and **SHADOW EDGE** brushes.

- To turn on the Drawing Guide, tap the **WRENCH** to access Actions.
- Under **CANVAS**, toggle on the Drawing Guide.
- You can then edit the drawing guide size/colors/thickness if you'd like. However, the default grid settings (as pictured) will work just fine for our purposes.

- Now in the Layers Panel, tap your working layer to access the side menu.
- From here, tap to turn on **DRAWING ASSIST**.
- Now when you draw on this layer, every brush stroke will be perfectly vertical or horizontal.
- **Note that this alignment can be overridden:** if you hold the pencil to the screen after you've drawn a stroke, it will snap into a Quick-Shape line and will no longer be aligned to the grid.
