Empowered Sheryl Ellinwood,2009 This year 192 300 women in the United States will develop breast cancer Every two to three minutes another woman will learn she has this disease Although many books have been written about breast cancer most focus on just a single aspect of the disease Breast cancer survivor Sheryl Ellinwood researched its multiple fronts prevention politics standard treatment alternative treatment and more before making her treatment decisions She discovered that knowledge provides power Doing research enabled her to avoid a life threatening mistake and to choose the right treatment In Empowered she shares findings that you may not be aware of woman to woman clearly and comprehensibly and then provides links to in depth information on each topic She also explains the risks and benefits of food choices the role of hormones and mineral deficiencies in breast cancer growth and how to avoid cancer causing toxins She examines how these factors create an environment for breast cancer to grow and explains how women can make choices that reduce their risk In Empowered Sheryl helps other women by leading them step by step through the process of doing their own research so they will be sure to choose the best treatment

Saving Tatas Christine Austin,2016-09-12 Christin Austin is well aware of the fear and concern that women have regarding their breast health She herself received very bad news of a potential breast cancer diagnosis in 2005 shortly after her mothers diagnosis Her cousin Angela lost her battle with cancer at the age of 33 and her mother succumbed to the disease in 2010 After healing her own breasts Christine has vowed to help women to do

the same Women need not wait to be broken to improve breast health With these proven strategies they can start healing their breasts today Saving Tatas is different because it is based on Christines experience and proven strategies that significantly changed her risk assessment Her breast test results went from high probability of malignancy to no criteria that establish risk for malignant disease The reality is that Breast Cancer Awareness strategies have done little if nothing to decrease the incidence of diagnosis The mammogram can be a useful tool for detecting a breast tumor however the cancer cells may have already entered the lymphatic system producing a potential death sentence The aim of Saving Tatas is to arm women with useful information that can prevent and or reverse unhealthy breast tissue before it becomes cancerous With wisdom comes power More women need to be empowered with good up to date preventative information and this book Saving Tatas provides just that

Healing With Iodine Mark Sircus, 2018-06-13 It is estimated that 90 percent of our population is iodine deficient and odds are most of us wouldn't think twice about it What you don't know is that this deficiency can directly result in some terrible health problems from cancer to heart failure to a host of other dreaded diseases And what's even worse is that while this deficiency makes most of us highly susceptible to each of these problems few medical professionals ever bother to see if iodine deficiency is the underlying cause of these problems What should be a red flag for diagnosing a disease may simply go undetected and untreated Now bestselling health author Dr Mark Sircus has written *Healing With Iodine* a clear guide to understanding and recognizing this missing link to better health *Healing With Iodine* is divided into three parts Part 1 explains what iodine is how it works in our body to maintain maximum health and why most of us don't get enough iodine in our diet Part 2 looks at the many current uses iodine plays in today's treatments It also offers guidelines for finding the right iodine and how it should be used Part 3 looks at some of our most common health problems including thyroid disorders heart disease and cancer as well as cognitive issues It also explains how each is related to iodine deficiency and what can be done to avoid these issues Dr Sircus points out that there is a growing movement in the health community to use iodine as a treatment offer however for too many of us continue to be unaware of just how crucial iodine can be to supporting our daily metabolism Here is in fact a red flag that offers the type of information that we should all be aware of And for many it may be just the thing that helps us avoid or overcome some of these common disorders

Heal Your Leaky Gut David Brownstein, 2017-08-08 Most illnesses start in the gut including many you would not even think of If your gut isn't functioning right it sets the stage for illness and disease The gut the gastrointestinal system is designed to absorb nutrients that support our bodies and help us make energy and get rid of things that we don't need or are toxic But what happens when the system breaks down Leaky gut syndrome LGS occurs when the lining of the small intestine is damaged allowing foreign compounds to escape into your bloodstream which weakens your immune system and triggers autoimmune reactions Traditional physicians don't understand what LGS is much less how to diagnose and treat it In fact it is estimated that more than 80 percent of people with chronic illnesses have leaky gut an overgrowth of bad bacteria or not enough good bacteria Here are some symptoms that may be caused by LGS Digestive complaints acid reflux IBS Crohn's disease Joint and muscle pain arthritis Obesity and food allergies Headaches depression anxiety ADHD Itchy skin rashes eczema acne rosacea psoriasis In *Heal Your Leaky Gut* Dr David Brownstein will explain how the gut like the brain heart and liver needs to be properly nourished in order for it to function correctly Simply stated if your

gut is not healthy your immune system is going to suffer Improving your gut health and taking fewer drugs will help you feel better and look younger improve your brain function and treat myriad medical conditions This book will give you all the information you need to change what you are now doing so you can have optimal gut health and as a result overall health and well being Directory of Graduate Research American Chemical Society.
