It helps you develop subject knowledge, acquire a deeper understanding of the role, purpose and potential of Design and Technology within the secondary curriculum, and provides the practical skills needed to plan, teach and evaluate stimulating and creative lessons. This third edition has been fully updated in light of the latest curriculum policy and theory, as well as exciting changes in the field of design and technology. Designed to be read as a course or dipped into for support and advice, it covers:

- Developing areas of subject knowledge
- Health and safety
- Planning lessons
- Organising and managing the classroom
- Teaching and learning with digital technologies
- Teaching wider issues through design and technology
- Assessment issues
- Your own professional development
- Bringing together insights from current educational theory and the best contemporary classroom teaching and learning

This book will prove an invaluable resource for all student and newly qualified teachers, as well as their mentors who aspire to become effective reflective teachers.

*Aspects of Teaching Secondary Design and Technology* Gwyneth Owen-Jackson, 2003-09-02 Beginning by outlining the national curriculum for design and technology, *Aspects of Teaching Secondary Design and Technology* goes on to look at what design and technology is in the primary school at examination level and post 16 Vocational qualifications relevant to design and technology are also discussed. There are chapters looking at the relationship between design and technology and the wider social and cultural context. The development of cross-curricular skills and value judgements are discussed, as are sustainability and the role of the community in the teaching and learning of design and technology. Together, these articles comprise a sound guide to good classroom practice related to the requirements of the curriculum and rooted in the professional perspectives of experienced teachers.
