

## **BUSINESS, LAW AND REGULATION: ETHICAL ISSUES**

In the first weeks of January 1993, the dealers in Mercabarna, the food wholesale central market in Barcelona, saw an increasing movement of foreign trucks loaded with vegetables, many of them coming from the Netherlands. Spain is a country naturally gifted for Mediterranean crops, whereas the Dutch must resort to greenhouses to obtain cheap vegetables. Nevertheless, Dutch foodstuffs began to invade the Spanish markets as soon as the regulations and barriers to the free circulation of goods and services were dismantled by the Single European Market on January 1, 1993. The Spanish farmers and dealers immediately understood that the competitive conditions in their markets had changed. Many of them had already prepared for the new competition; others adapted to it after the invasion, and others preferred to ask the government for more protection. But the erection of new trade barriers was no longer feasible: after 1993, opportunities, profits, life itself will be different for many Europeans.

This paper deals with certain ethical problems that arise between the State and businesses as a result of laws and regulations. It consists of two parts with an introduction. The first part attempts to justify the existence of the State, the moral duties it imposes on businesses, why firms must obey the law, and the ethical challenges that this duty poses for companies. The second deals in more detail with the ethical problems of a special form of relation between the State and businesses: regulation.

### **Business and the State**

If we are to believe the economists, economic freedom is the normal setting for business, because the absence of restrictions guarantees an optimal allocation of resources, under certain conditions. Nevertheless, economic life is far from unrestricted freedom. And this is good for companies: when the law of the jungle dominates, business disappears. Moreover, governments like to have power and influence. And many lobbies or interest groups succeed in getting regulations that benefit them, even if they damage consumers and competitors. Finally, in many cases ideology curtails economic freedom in the name of supposedly higher principles.

Law and regulations are, then, an important part of the background of business. They restrict the set of possible actions and decisions available to businesses and lay charges and costs (*e. g.*, taxes) upon them, using the coercive power of the State. They also protect

## **Business Law Research Paper:**

**Interdisciplinary Research for Sustainable Business** Beate Sjøfjell, Roseanne Russell, Maja Van der Velden, 2022-10-26 This volume brings together contributions from women business scholars from a range of disciplines and countries. The starting point was a collaborative research meeting organised by Daughters of Themis International Network of Female Business Scholars in June 2017. The volume highlights the difficulties and the possibilities that lie in working together across disciplines with the aim of achieving corporate sustainability. The volume is written from the perspective of women business scholars thereby offering outside viewpoints in fields that still are very much dominated by men and fresh insights and innovative ideas. In three main parts the authors address the need for interdisciplinarity in research to identify ways to ensure the contribution of business to sustainability showcasing a number of theoretical and applied approaches for researching sustainable business. The volume's introductory chapter situates the volume in discourses of sustainability and corporate sustainability. It presents the Daughters of Themis Network and provides a short description of the successive eleven chapters. In Part I Reflections contributors discuss the significance of interdisciplinary research, how to work across disciplines as well as the challenges of doing so. In Part II Theory contributors discuss theoretical and methodological aspects of interdisciplinary research. Part III presents the Practice of interdisciplinary research. In the introductory chapter the editors reflect on the insights that can be drawn out of the contributions and discuss the potential for future developments of interdisciplinary research for sustainability as well as how interdisciplinary research can be communicated. The book is intended for business scholars and will particularly appeal to those working in law, accountancy and finance management and organization studies.

**Business Law** Arlen W. Langvardt, A. James Barnes, Jamie Darin Prenkert, Martin A. McCrory, Joshua E. Perry, 2018 This is the 17th UCC Edition and the twenty second overall edition of a business law text that first appeared in 1935. Throughout its 80 years of existence this book has been a leader and an innovator in the fields of business law and the legal environment of business. One reason for the book's success is its clear and comprehensive treatment of the standard topics that form the traditional business law curriculum. Another reason is its responsiveness to changes in these traditional subjects and to new views about that curriculum. In 1976 this textbook was the first to inject regulatory materials into a business law textbook defining the legal environment approach to business law. Over the years this textbook has also pioneered by introducing materials on business ethics, corporate social responsibility, global legal issues and e-commerce law. The 17th Edition continues to emphasize change by integrating these four areas into its pedagogy.

**Research Handbook on Corporate Purpose and Personhood** Pollman, Elizabeth, Thompson, Robert B., 2021-09-28 This insightful Research Handbook contributes to the theoretical and practical understanding of corporate purpose and personhood which has become the central debate of corporate law. It provides cutting edge thoughts on the role of corporations in society and the nature of their rights and responsibilities.

**Corporate Group Legitimacy** Peter Underwood, 2024-08-01 This book focuses on the

legitimacy of corporate power wielded by corporate groups integrating legal doctrine economic analysis and theoretical approaches It reassesses how corporate groups can maintain legitimacy whilst exercising corporate power Corporate groups are a prominent commercial feature of many jurisdictions and present unique challenges The book argues that when analysed through the lens of corporate social responsibility a legitimacy deficiency emerges This arises from a lack of historical debate diluted control mechanisms and inflated growth utilising unique features of the corporate group It explores how the magnified power of the corporate group presents acute challenges for corporate legitimacy Data is utilised alongside current examples of corporate groups which identify structural architectural patterns It explores new technologies such as Artificial Intelligence and blockchain as ways of attaining legitimacy It presents methods of attaining legitimacy for the continued wielding of power to be held within corporate groups This book spans several research interests under the corporate law umbrella It will be of interest to traditional black letter company lawyers Additionally it will be of interest to those who have an interest in business and those who are interested in the role of technology *Australian National*

*Bibliography: 1992 National Library of Australia,1988* **Regulating Open Banking** Chang-Hsien Tsai,Kuan-Jung Peng,2022-11-29 FinTech transformations have brought changes to the global financial markets and merit the attention of financial regulators across jurisdictions This book is one of the first ones of its kind to look at open banking OB It examines regulatory approaches to OB by taking a broad view of comparative legal systems and through perspectives of transaction costs public choice and institutional design The book looks at the legal implications by engaging in a two tiered comparative analysis comparing between compulsory and voluntary approaches to OB policies and comparing the legal systems between the West i e the EU and the UK and an Asian economy i e Taiwan **Business Law** Richard A. Mann,Barry S.
