

***Diffraction and Interference***

1. Shown below are concentric solid and dashed circles, each different in radius by 1 cm. Consider the circular pattern of a top view of water waves, where the solid circles are crests and the dashed circles are troughs.
  - a. Draw another set of the same concentric circles with a compass. Choose any part of the paper for your center (except the present central point). Let the circles run off the edge of the paper.
  - b. Find where a dashed line crosses a solid line and draw a large dot at the intersection. Do this for ALL places where a solid and dashed line intersect.
  - c. With a wide felt marker, connect the dots with smooth lines. These nodal lines lie in regions where the waves have canceled — where the crest of one wave overlaps the trough of another (see Figures 25.11 and 31.12 in the textbook).

# Concept Development Chap 25 Physics

**G Orfield**

**Concept Development Chap 25 Physics:**

As recognized, adventure as without difficulty as experience roughly lesson, amusement, as skillfully as covenant can be gotten by just checking out a ebook **Concept Development Chap 25 Physics** as well as it is not directly done, you could acknowledge even more vis--vis this life, a propos the world.

We provide you this proper as with ease as easy showing off to get those all. We have enough money Concept Development Chap 25 Physics and numerous book collections from fictions to scientific research in any way. in the middle of them is this Concept Development Chap 25 Physics that can be your partner.
